Mondrian Meyer Schapiro, 1978 Pictures of Nothing Kirk Varnedoe, 2023-10-17 An illuminating exploration of the meaning of abstract art by acclaimed art historian Kirk Varnedoe What is abstract art good for What's the use for us as individuals or for any society of pictures of nothing of paintings and sculptures or prints or drawings that do not seem to show anything except themselves In this invigorating account of abstract art since Jackson Pollock eminent art historian Kirk Varnedoe the former chief curator of painting and sculpture at the Museum of Modern Art asks these and other questions as he frankly confronts the uncertainties we may have about the nonrepresentational art produced in the past five decades He makes a compelling argument for its history and value much as E H Gombrich tackled representation fifty years ago in *Art and Illusion* another landmark A W Mellon Lectures volume Realizing that these lectures might be his final work Varnedoe conceived of them as a statement of his faith in modern art and as the culminating example of his lucidly pragmatic and philosophical approach to art history He delivered the lectures edited and reproduced here with their illustrations to overflowing crowds at the National Gallery of Art in Washington in the spring of 2003 just months before his death With brilliance passion and humor Varnedoe addresses the skeptical attitudes and misunderstandings that we often bring to our experience of abstract art Resisting grand generalizations he makes a deliberate and scholarly case for abstraction showing us that more than just pure looking is necessary to understand the self made symbolic language of abstract art Proceeding decade by decade he brings alive the history and biography that inform the art while also challenging the received wisdom about distinctions between abstraction and representation modernism and postmodernism and minimalism and pop The result is a fascinating and ultimately moving tour through a half century of abstract art concluding with an unforgettable description of one of Varnedoe's favorite works Please note All images in this ebook are presented in black and white and have been reduced in size **Colour and Abstraction** George Blacklock, 2015-10-26 Colour and Abstraction looks at how colour was liberated from its subservient role to drawing in developing pictorial space and how with traditional roles broken abstraction was born allowing a more vibrant use of colour As a practical book it explores how paint can determine the colour and drawing within a painting especially in relation to how expressive cool gestural tactile or intense the work will be This in turn can determine the kind of pictorial space that the artist uses moving both toward and away from depiction This

new book encourages you to understand how colour relates to abstraction and create a method of painting that challenges and advances your own style

Understanding Abstract Art Frank Whitford, 1987 Abstract paintings are discussed here both from the point of view of their creators and from the point of view of the spectator Then the kind of question repeatedly asked about abstraction is asked and answered By what standards can an abstract painting be judged Does abstraction set out to disregard the public's expectations and wishes If so is it unique in this Does the viewer contribute more to an appreciation of an abstract painting than to a more traditional work Does any abstract painting have a message If so how does it express it Is it necessary to know anything about the artist himself in order to fully appreciate his work Does an abstract painting require more or less skill in its execution than a traditional work Is there anything more to abstraction than novelty back cover

Abstract Art Mel Gooding, 2001-08-13 Abstract art in its many forms has been a dominant mode in the visual arts for the better part of a century Popular histories usually trace abstraction as a succession of style or isms each set within its particular art historical context assuming a general familiarity with this kind of critical narrative The book addresses itself to the interested non specialist who frequents galleries and reads art books but who often feels mystified when confronted by abstract work Abstract art by its nature demands an imaginative response a personal construction of meaning Mel Gooding offers readings of specific paintings and sculptures by artists such as Kandinsky Mondrian Gabo and Pollock treating them as exemplary of particular tendencies within the overlapping histories of abstraction The book defines distinctions between types of abstract art that may seem similar and discovers underlying correspondences between those that may seem different enabling the reader to identify links between abstract works across traditional art historical periods
