

PALLIATIVE CARE

" pal - lee - uh - tiv "

WHY HAVE I
BEEN
OFFERED
THIS?

Palliative Care is a gentle and distinct approach to caring for people with illnesses that can't be cured (like advanced heart, lung, kidney and neurological diseases and advanced cancers.)

Palliative Care doesn't necessarily mean you only have 'days' to live! In fact, the earlier you have contact

with palliative care services, the easier it is for you to get access to a whole range of services, equipment and expertise designed to make your life more COMFORTABLE regardless of the stage of your illness.

BUT I'M NOT
READY TO DIE
JUST YET!

WILL I HAVE TO GIVE UP SEEING MY
SPECIALIST DOCTORS?

No. Palliative Care teams are keen to work with you, and alongside your specialist doctors and services, to make sure all aspects of your illness are managed in the best, most appropriate manner that suits you.

IF YOU HAVE ANY CONCERNS, PLEASE TALK WITH
YOUR GP AND/OR YOUR PALLIATIVE CARE TEAM.

Rethinking palliative care Sinclair, Paul, 2007-04-04 This book's striking message is that palliative care does not deliver on its aims to value people who are dying and make death and dying a natural part of life This book draws from wider social science perspectives and critically and specifically applies these perspectives to palliative care and its dominant medical

model Applying Social Role Valorisation the author argues for the de institutionalisation of palliative care and the development of an alternative framework to the approaches found in hospices palliative care units and community based palliative care services He offers a new conceptualisation of death and loss that refines and expands modern understandings in a way that also resonates with traditional religious views concerning death Wide ranging recommendations advise fundamental change in the concept of palliative care the way support and services are organised and the day to day practice of palliative care Rethinking palliative care will be of interest to academics students and practitioners in palliative care as well as those in disability social policy sociology social work religion thanatology nursing and other health related fields

Progress Notes Abraham M. Nussbaum, 2024-06-25 By telling the story of six medical students this work shows the readers how we have trained physicians how it feels to become a physician and how we can train future physicians so they know patients and themselves better
