Disruptive Leadership Rich Kao, 2018-01-02 Disruptive leadership is a topic generating intense interest. Companies all over the world are trying to upend their industry through innovative products and services. Becoming a disruptive organization, however, is easier said than done. Even more difficult is being a company that continually disrupts. Is it possible to discern a code for how companies can achieve this? In this highly readable and engaging book, a disruptive leadership framework is proposed in which caring deeply is placed at the center of the model. By turning care into a focal point, a triphasic model is proposed that moves from the personal sphere (individual) to the corporate arena (organizational) and then to the global stage (impact). Nine keys are identified along this path for how companies can realize organizational excellence. While care may seem like a soft concept in the rough and tumble world of business, it is argued how

it is actually an inspired manner for providing direction structure and know how that leads to powerful outcomes Apple is profiled as a leading example of leveraging what is termed the technology of caring deeply Other companies such as Nike IKEA Zappos Starbucks are also profiled Finally a leadership canvas is provided to help activate the lessons shared in the book **Operations Management in the Hospitality Industry** Peter Szende,Alec N.
