Good Meal Prep Ideas For Beginners and Dummies

Barbara Dawson,2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you've ever had your leftovers from dinner to take with you for lunch then next time you've had mini meal prepped Generally though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like making your lunches for the week all at once instead of making your lunch throughout the week You can use this same technique for breakfast lunch dinner and snacks Meal prepping doesn't waste and reduce the time to get outside your house whether the plan is a diet or a budget When making your meal plan for the week the first question is how many meals without having to do it each day to reduce the time Meal prepping is not for everyone It is good for the value convenience and efficiency more than anything else With meal prepping you generally eat the same thing for a few days in a row so you don't look at leftovers or get bored with food Meal prepping is not for everyone If having more variety is what you're maximizing your time and budget is more valuable to you than getting something different every day meal prepping is not for you I've generally not seen meal prepping for the month or maybe one other person do a whole month Meal prepping for a whole month would be quite difficult but the more you do it the more you'll find it's not as hard as it seems A food item is stored in the refrigerator for a long time in a slow motion In addition to the way food is packed the individual nuances of your refrigerator can impact the food's refrigerated shelf life the less acceptable the food's texture and flavor will be to the eater Always begin with the refrigerator's guidelines to be the FDA and then evaluate them against your own preferences In general I don't think it's more than a few days worth of a meal but I find that's the best food you'll find to eat
