Fundamental principles of fostering strong brands are distilled with illustrations of case studies from various industries. Reclaiming Your Community Majora Carter, 2006-10-19 Majora Carter shows how brain drain cripples low-status communities and maps out a development strategy focused on talent retention to help them break out of economic stagnation. My musical *In the Heights* explores issues of community, gentrification, identity, and home, and the question: Are happy endings only ones that involve getting out of your neighborhood to achieve your dreams? In her refreshing new book, Majora Carter writes about these issues with great insight and clarity, asking us to re-examine our notions of what community development is and how we invest in the futures of our hometowns. This is an exciting conversation worth joining.

Lin Manuel Miranda: How can we solve the problem of persistent poverty in low-status communities? Majora Carter argues that these areas need a talent retention strategy just like the ones companies have. Retaining homegrown talent is a critical part of creating a strong local economy that can resist gentrification. But too many people born in low-status communities measure their success by how far away from them they can get. Carter, who could have been one of them, returned to the South Bronx and devised a development strategy rooted in the conviction that these communities have the resources within themselves to succeed. She advocates measures such as building mixed-income instead of exclusively low-income housing to create a diverse and robust economic ecosystem. Showing homeowners how to maximize the long-term value of their property so they won't succumb to quick cash offers from speculators. Keeping people and dollars in the community by developing vibrant third spaces, restaurants, bookstores, and places like Carter's own Boogie Down Grind Cafe. This is a profoundly personal book. Carter writes about her brother's murder, how turning a local dumping ground into an award-winning park opened her eyes to the hidden potential in her community, her struggles as a woman of

color confronting the male and pale real estate and nonprofit establishments and much more It is a powerful rethinking of poverty economic development and the meaning of success **Seasonal Sociology** Tonya Davidson, Ondine Park, 2020-08-27 Life in Canada is marked celebrated enjoyed and dreaded in ways that respond specifically to the seasons Sociological thinking allows people to ask questions about things that may otherwise be taken for granted Thinking about the seasons sociologically opens up a unique perspective for studying and understanding social life Each chapter in this collection approaches the seasons and the passage of time as a way to explore issues of sociological interest The authors use seasonality as a device that can bridge in fascinating ways small scale interpersonal interactions and large formal institutional structures These contemporary Canadian case studies are wide ranging and include analyses of pumpkin spice lattes policing in schools law and colonialism summer cottages seasonal affective disorder New Year's resolutions Vaisakhi celebrations and more Seasonal Sociology offers provocative new ways of thinking about the nature of our collective lives
