Readers' Guide to Periodical Literature Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1910
Readers' Guide to Periodical Literature, 1910 **Scholarship and Other Essays** Calvin Thomas, 1924 *The New Scholarship on Dewey* James W. Garrison, 2012-12-06 Since 1979 when Richard Rorty's *Philosophy and the Mirror of Nature* appeared there has been a flood of new scholarship on the philosophy of John Dewey. Surprisingly little of this scholarship has thus far made its way into the field of education where Dewey's philosophy has traditionally had a wide influence. Many of the authors of this collection are philosophers who have created some of the most original and influential work in this new scholarship. Five of them Larry Hickman, Thomas M. Alexander, Raymond D. Boisvert, and J. E. Tiles have written major books that have received wide international acclaim. Among the philosophers of education some like Philip W. Jackson are among the best known names in the entire international field and have kept pace with Deweyan scholarship for many years. Others are younger scholars who know the new scholarship well. Finally two prominent feminists contribute important new work on Dewey expanding the domain of the new scholarship on Dewey. One of them Susan Laird has had her work cited in the new biography of John Dewey by Robert Westbrook. **Research Methodologies for Sports Scholarship** James Skinner, Terry Engelberg, 2018-12-07 When investigating the diverse, complex and changing contemporary field of sport we recognize there is no methodology that meets the needs of all sport. Sport researchers should take advantage of innovative approaches from other fields to explore emerging phenomena or innovatively advance scholarly sport research approaches. For example, technology, globalization and commercialization may be the principal trends but they are not the only trends. Sport researchers have the opportunity to study other trends including the modernization of sport organizations, changing governance practices, regulatory changes, innovation, merchandising, media and broadcasting technologies, socio-demographic influences, i.e. aging populations, change in employment patterns, increasing diversity, sport for development, physical activity and sport participation changes. As such, this book introduces innovative research methods and approaches that can be applied to the sport discipline. This book was originally published as a special issue of *Sport in Society*. **6th Annual Mid-Atlantic People of Color Legal Scholarship Conference**, 2000 **New Testament Scholarship** Desiderius Erasmus, 1988
