Digital Scholarship in the Tenure, Promotion and Review Process Deborah Lines Andersen, 2015-04-15 To receive tenure college and university professors have long been required to write scholarly monographs or articles engage in serious research and teach effectively In recent years however the emergence of digital scholarship has revolutionized and complicated the picture in unexpected ways as new electronic media have enabled academics to communicate scholarly material in innovative formats such as websites PowerPoint presentations CD ROMs and virtual reality tours Despite this growing output of sophisticated digital scholarship there has been little attempt to set standards define basic issues and concepts or integrate electronic scholarship into the tenure debate This collection of cutting edge articles marks the first effort to evaluate the place of digital scholarship in the tenure promotion and review process As a primer aimed at scholars faculty members and department chairs in the humanities social sciences and other fields as well as deans provosts and university administrators this collection examines the evolution of nontraditional scholarship analyzes the various formats and suggests guidelines for assessment on a scholarly level It also examines the impact of digital scholarship in the classroom and academy and explores new directions for the future This book will help shape policy in the murky world of tenure review and could become a central text for scholars and administrators everywhere

Bill Cerbin,2023-07-03 Why do students stumble over certain concepts and ideas such as attributing causality to correlation revert to former misconceptions even after successfully completing a course such as physics students continuing to believe an object tossed straight into the air continues to have a force propelling it upward or get confused about terminology such as conflating negative reinforcement with punishment This is the first book about lesson study for higher education Based on the idea that the best setting in which to examine teaching is where it takes place on a daily basis the lecture hall seminar room studio lab and the online classroom management system lesson study involves several instructors jointly designing teaching studying and refining an individual class lesson in order to explore student learning problems observe how students learn and analyze how their instruction affects student learning and thinking The primary purpose is to help teachers better understand how to support student learning and thinking By observing how students learn through lesson study teachers can improve their own teaching and build knowledge that can be used by other teachers to improve their practice Lesson study grew out of the collective efforts of classroom teachers in Asia most notably in Japan to improve their teaching Subsequently imported tested and implemented by a group of instructors of biology economics English and psychology at the University of Wisconsin La Crosse the process proved so valuable that the university has since established the College Lesson Study Project of which the author of this book is Director Focusing on a single lesson enables participants to examine in detail every step of the teaching process from vision and goals to instructional design to implementation to observation and analysis of student performance and then evidence based improvement It enables faculty to explore learning problems that matter most to them learn alternative ways to teach from one another and co design new course materials This book introduces lesson study practices to college teachers providing the necessary guidance tools examples models and ideas to enable teachers to undertake lesson study in their own classes It also explores the underlying rationale for lesson study practices and how to realize the full potential of lesson study to advance teaching and learning A Joint Publication with the National Teaching and Learning ForumAn ACPA NASPA Joint Publication **Buxton conference souvenir, official guide, ed. by E.
