Johnson, 2021-03-24 This book offers an introductory guide to sports TV, its history in the United States, the genre's defining characteristics and analysis of its critical significance for the business practices, formal properties and social, cultural and political meanings of the medium. Victoria E. Johnson discusses a range of examples from textual analysis of programs such as Monday Night Football and Being Serena to examination of television rights details to sports TV's technological innovations and engagement of critical political debates. Johnson examines sports TV from its introduction to the ESPN era. She proposes that sports as seen on TV in all of its iterations is the central cultural forum for working through questions of community, ideals, struggles over national and regional mythologies and questions of representative citizenship. This book is an ideal guide for students and scholars of television media and cultural studies as well as those with an interest in television genre, sports TV history and contemporary sport and media culture. *Relationship Marketing in Sports* Andre Buhler, Gerd Nufer, 2012-07-26 Relationship marketing is an important issue in every business. Knowing the customers and establishing, maintaining and enhancing long term customer relationships is a key component of long term business success. Considering that sport is such a big business today, it is surprising that this crucial approach to marketing has yet to be fully recognised either in literature or in the sports business itself. *Relationship Marketing in Sports* aims to fill this void by discussing and reformulating the principles of relationship marketing and by demonstrating how relationship marketing can be successfully applied in practice within a sports context. Written by a unique author team of academic and practitioner experience, the book provides the reader with the first book to apply the principles of relationship marketing specifically to a sports context. Case studies from around the world provide a uniquely global approach, applicable worldwide. Strong pedagogical features including learning outcomes, overviews, discussion questions, glossary, guided reading and web links, practical advice for professional, semi professional and non professional sporting organisations, a companion website providing web links, case studies and PowerPoint slides for lecturers. *Relationship Marketing in Sports* is crucial reading for both students and professionals alike and marks a turning point in the marketing of sports. **The Toronto Maple Leaf Hockey Club** Kevin
