Artificial Intelligence-Enabled Businesses Sweta Dixit, Mohit Maurya, Vishal Jain, Geetha Subramaniam, 2024-12-05 This book has a multidimensional perspective on AI solutions for business innovation and real life case studies to achieve competitive advantage and drive growth in the evolving digital landscape Artificial Intelligence Enabled Businesses demonstrates how AI is a catalyst for change in business functional areas Though still in the experimental phase AI is instrumental in redefining the workforce predicting consumer behavior solving real life marketing dynamics and modifications recommending products and content foreseeing demand analyzing costs strategizing managing big data enabling collaboration of cross entities and sparking new ethical social and regulatory implications for business Thus AI can effectively guide the future of financial services trading mobile banking last mile delivery logistics and supply chain with a solution oriented focus on discrete business problems Furthermore it is expected to educate leaders to act in an ever more accurate complex and sophisticated business environment with the combination of human and machine intelligence The book offers effective efficient and strategically competent suggestions for handling new challenges and responsibilities and is aimed at leaders who wish to be more innovative It covers the early stages of AI adoption by organizations across their functional areas and provides insightful

guidance for practitioners in the suitable and timely adoption of AI This book will greatly help to scale up AI by leveraging interdisciplinary collaboration with cross functional skill diverse teams and result in a competitive advantage Audience This book is for marketing professionals organizational leaders and researchers to leverage AI and new technologies across various business functions It also fits the needs of academics students and trainers providing insights case studies and practical strategies for driving growth in the rapidly evolving digital landscape *Artificial Intelligence and Machine Learning in the Travel Industry* Ben Vinod,2023-05-26 Over the past decade Artificial Intelligence has proved invaluable in a range of industry verticals such as automotive and assembly life sciences retail oil and gas and travel The leading sectors adopting AI rapidly are Financial Services Automotive and Assembly High Tech and Telecommunications Travel has been slow in adoption but the opportunity for generating incremental value by leveraging AI to augment traditional analytics driven solutions is extremely high The contributions in this book originally published as a special issue for the Journal of Revenue and Pricing Management showcase the breadth and scope of the technological advances that have the potential to transform the travel experience as well as the individuals who are already putting them into practice Artificial Intelligence in Accounting Cory Ng,John Alarcon,2020-12-08 Artificial Intelligence in Accounting Practical Applications was written with a simple goal to provide accountants with a foundational understanding of AI and its many business and accounting applications It is meant to serve as a guide for identifying opportunities to implement AI initiatives to increase productivity and profitability This book will help you answer questions about what AI is and how it is used in the accounting profession today Offering practical guidance that you can leverage for your organization this book provides an overview of essential AI concepts and technologies that accountants should know such as machine learning deep learning and natural language processing It also describes accounting specific applications of robotic process automation and text mining Illustrated with case studies and interviews with representatives from global professional services firms this concise volume makes a significant contribution to examining the intersection of AI and the accounting profession This innovative book also explores the challenges and ethical considerations of AI It will be of great interest to accounting practitioners researchers educators and students **We, the Robots?** Simon Chesterman,2021-08-05 Should we regulate artificial intelligence Can we From self driving cars and high speed trading to algorithmic decision making the way we live work and play is increasingly dependent on AI systems that operate with diminishing human intervention These fast autonomous and opaque machines offer great benefits and pose significant risks This book examines how our laws are dealing with AI as well as what additional rules and institutions are needed including the role that AI might play in regulating itself Drawing on diverse technologies and examples from around the world the book offers lessons on how to manage risk draw red lines and preserve the legitimacy of public authority Though the prospect of AI pushing beyond the limits of the law may seem remote these measures are useful now and will be essential if it ever does *New Directions in Educational Technology and*

Administration Fred Paas, Srikanta Patnaik, Taosheng Wang, 2025-07-14 New Directions in Educational Technology and Administration emphasize the integration of cutting edge tools like artificial intelligence big data and augmented reality to enhance teaching and learning experiences This volume focus on creating more personalized accessible and equitable education systems that cater to diverse learners At the same time administrative innovations prioritize data driven decision making and streamlined operations to foster efficient institutional management This volume also explores the most recent innovations and significant developments in the domain of Educational Technology and Administration offering a thorough overview of the current landscape It encompasses various dimensions including Learning Analytics and Curriculum Design Online and Distance Learning Leadership in Modern Education By merging theoretical knowledge with practical applications this book empowers educators researchers practitioners and students to navigate and excel with the New Directions in Educational Technology and Administration with a focus on responsible technology for assessment and feedback the book address challenges like digital equity and ethical implementation By embracing these new directions the education sector is poised to redefine learning environments and empower future generations

Digital Libraries Across Continents Le Yang, Alicia Salaz, 2025-06-13 Digital Libraries Across Continents illustrates how digital librarianship practitioners and scholars digitize exhibit and preserve their cultural heritage and how these practices may be influenced by the policy economic and sociocultural environments in which they are developed Including scholarly articles case studies examples of best practice and conceptual essays solicited from different continents this book provides an overview of the status quo of digital libraries around the globe The case studies examine how macro level policy funding and social priorities influence the development of digital libraries The volume offers a deeper understanding of the similarities and differences between libraries in different countries and the ways in which they view foster develop and sustain digital librarianship Chapters within the book examine systems standards workflows content protocol social and policy environments culture metadata and more through a series of case studies provided by practitioners working in these settings Taking a comparative international approach the book promotes the development of inclusive accessible and sustainable digital libraries that serve a global human knowledge endeavor Digital Libraries Across Continents provides a wide ranging examination of issues in cross border digital library contexts It will be essential reading for library practitioners as well as information scientists and educators

The Secrets of AI Value Creation Michael Proksch, Nisha Paliwal, Wilhelm Bielert, 2024-03-04 Unlock unprecedented levels of value at your firm by implementing artificial intelligence In The Secrets of AI Value Creation Practical Guide to Business Value Creation with Artificial Intelligence from Strategy to Execution a team of renowned artificial intelligence leaders and experts delivers an insightful blueprint for unlocking the value of AI in your company This book presents a comprehensive framework that can be applied to your organisation exploring the value drivers and challenges you might face throughout your AI journey You will uncover effective strategies and tactics utilised by successful

artificial intelligence AI achievers to propel business growth In the book you ll explore critical value drivers and key capabilities that will determine the success or failure of your company s AI initiatives The authors examine the subject from multiple perspectives including business technology data algorithmics and psychology Organized into four parts and fourteen insightful chapters the book includes Concrete examples and real world case studies illustrating the practical impact of the ideas discussed within Best practices used and common challenges encountered when first incorporating AI into your company s operations A comprehensive framework you can use to navigate the complexities of AI implementation and value creation An indispensable blueprint for artificial intelligence implementation at your organisation The Secrets of AI Value Creation is a can t miss resource for managers executives directors entrepreneurs founders data analysts and business and tech side professionals looking for ways to unlock new forms of value in their company The authors who are industry leaders assemble the puzzle pieces into a comprehensive framework for AI value creation Michael Proksch is an expert on the subject of AI strategy and value creation He worked with various Fortune 2000 organisations and focuses on optimising business operations building customised AI solutions and driving organisational adoption of AI through the creation of value and trust Nisha Paliwal is a senior technology executive She is known for her expertise in various technology services focusing on the importance of bringing AI technology computing resources data and talent together in a synchronous and organic way Wilhelm Bielert is a seasoned senior executive with an extensive of experience in digital transformation program and project management and corporate restructuring With a proven track record he has successfully led transformative initiatives in multinational corporations specialising in harnessing the power of AI and other cutting edge technologies to drive substantial value creation

Artificial Intelligence Applications and Innovations. AIAI 2024 IFIP WG 12.5 International Workshops

Ilias Maglogiannis,Lazaros Iliadis,Ioannis Karydis,Antonios Papaleonidas,Ioannis Chochliouros,2024-06-22 This book constitutes the refereed proceedings of three International Workshops held as parallel events of the IFIP WG 12 5 International Workshops on Artificial Intelligence Applications and Innovations AIAI 2024 held in Corfu Greece during June 27 30 2024 The 30 full papers and 4 short papers presented in this book were carefully reviewed and selected from 69 submissions AIAI 2024 Workshop volume presents papers from the following three workshops 13th event of the International Mining Humanistic Data Workshop MHDW 2024 9th 5G PINE Workshop 5G PINE 2024 1st Workshop on AI Applications for Achieving the Green Deal Targets 4GD 2024

New Trends in Applied Artificial Intelligence Hiroshi G. Okuno,Moonis Ali,2007-07-18 This book constitutes the refereed proceedings of the 20th International Conference on Industrial and Engineering Applications of Artificial Intelligence and Expert Systems IEA AIE 2007 held in Kyoto Japan Coverage includes text processing fuzzy system applications real world interaction data mining machine learning chance discovery and social networks e commerce heuristic search application systems and other applications

Artificial Intelligence for Class IX Dr. Harsh Bhasin,Vishal Deshwal,2024-09-18 DESCRIPTION Artificial Intelligence for Class IX introduces young learners to the

exciting world of AI perfect for students at your level This book covers the basics of AI its real life applications and how it is changing industries like gaming transportation and more As a Class IX student you will gain a solid foundation in AI and learn how it is used to solve everyday problems and create innovative solutions This book is designed for IX grade students to introduce them to key concepts in data science programming and AI It covers the basics of gathering and exploring data and introduces programming focusing on Python a popular language for AI In addition it highlights the importance of technology and its environmental impact teaching students about Information and Communication Technology ICT and green skills The book makes learning interactive with real life examples relatable explanations and activities that engage students Each chapter includes exercises to apply their new knowledge from coding tasks to reflecting on communication skills This hands on approach ensures students grasp these essential topics setting them up for success in both academics and future careers By the end of this book you will be equipped with the knowledge and skills to explore the exciting world of AI You will be able to understand how AI works create simple AI projects and develop the critical thinking and problem solving abilities needed to thrive in the age of AI

KEY FEATURES Covers AI neural networks and AI project cycle Introduces the fundamentals of each topic with detailed explanations real life examples and relatable analogies Contains projects and exercises to provide practical experience and a better understanding

WHAT YOU WILL LEARN Basics of programming specifically Python Fundamentals of AI and ML Process of understanding data acquisition exploration and modeling Importance of key soft skills like communication self management and entrepreneurial skills ICT skills and green skills

WHO THIS BOOK IS FOR Class IX students of CBSE schools students of any other board and any other learner interested in learning AI and Python

TABLE OF CONTENTS

- 1 Introduction to Artificial Intelligence
- 2 Artificial Intelligence Life Cycle
- 3 Problem Scoping
- 4 Data Acquisition
- 5 Data Exploration
- 6 Data Modeling
- 7 Introduction to Machine Learning and Neural Networks
- 8 Basics of Programming
- 9 Introduction to Python
- 10 Lists
- 11 Communication Skills
- 12 Self Management Skills
- 13 Communication Technologies
- 14 Entrepreneurship Skills
- 15 Green Skills

Using Artificial Intelligence Absolute Beginner's Guide Michael Miller, 2024-11-27

Using Artificial Intelligence Absolute Beginner's Guide Who knew how simple AI could be Using Artificial Intelligence Absolute Beginner's Guide will have you getting the most of popular AI tools in no time Here's a small sample of what you'll find inside Learn how AI can make everyday life easier Get tips for using AI to write gather information get advice and more Discover how to use AI to generate images that are realistic and fantastical Examine the risks and rewards of artificial intelligence Find step by step instructions for today's most popular AI tools including ChatGPT Google Gemini Meta AI Microsoft Copilot and Midjourney Find out how to tell when something is AI generated so you don't get fooled by deepfakes Artificial intelligence can be fun and productive if you know which tools to use and when Using Artificial Intelligence Absolute Beginner's Guide tells you all about today's major AI tools and shows how to get the best results from them You'll learn to use AI for turning your ideas into art writing a great email sharpening your resume and even sparking

conversation Instantly research everything from planning a trip to making your next big purchase It s all a matter of picking the right AI tool and constructing the right prompt You ll also learn to protect yourself from the risks of AI and distinguish AI fakes from the real thing Everything you need to know is here in this book **The Palgrave Handbook of Malicious Use of AI and Psychological Security** Evgeny Pashentsev,2023-06-09 This handbook focuses on new threats to psychological security that are posed by the malicious use of AI and how it can be used to counteract such threats Studies on the malicious use of AI through deepfakes agenda setting sentiment analysis and affective computing and so forth provide a visual representation of the various forms and methods of malicious influence on the human psyche and through this on the political economic cultural processes the activities of state and non state institutions Separate chapters examine the malicious use of AI in geopolitical confrontation political campaigns strategic deception damage to corporate reputation and activities of extremist and terrorist organizations This is a unique volume that brings together a multidisciplinary range of established scholars and upcoming new researchers from 11 countries This handbook is an invaluable resource for students researchers and professionals interested in this new and developing field of social practice and knowledge **Digital Pricing Strategy** Stephan M. Liozu,Andreas Hinterhuber,2023-06-27 Digital Pricing Strategy provides a best practice overview of how companies design analyze and execute digital pricing strategies Bringing together insights from academic and professional experts globally the text covers essential areas of the value and pricing of data platform pricing pricing of subscriptions and monetization of the global environment Case studies examples and interviews from leading organizations including Zuora Honeywell Relayr Alcatel Lucent ABB Thales and General Electric illustrate key concepts in practice To aid student learning chapter objectives summaries and key questions feature in every chapter alongside PowerPoint slides and a test bank available online for lecturers Comprehensive and applied in its approach this text provides postgraduate MBA and Executive Education students with an understanding of the capabilities processes and tools that enable executives to effectively implement digital transformations and capture value from digital innovations

As recognized, adventure as with ease as experience very nearly lesson, amusement, as capably as union can be gotten by just checking out a book **Ai Overview Prices** furthermore it is not directly done, you could put up with even more roughly this life, vis--vis the world.

We manage to pay for you this proper as competently as simple pretentiousness to get those all. We have the funds for Ai Overview Prices and numerous books collections from fictions to scientific research in any way. among them is this Ai Overview Prices that can be your partner.
