Education Scholarship in Healthcare April S. Fitzgerald, Gundula Bosch, 2023-11-28

Academic medical centers continue to require evidence of scholarly activity for their faculty to maintain their appointment and to advance in promotion rank For some training to know how to obtain evidence of scholarship was obtained through fellowship where information was passed from mentor to mentee in an apprenticeship fashion without a formalized text to follow to obtain the information In fellowship information might flow through word of mouth or articles handed down out to a mentee Others in fellowship develop skills by taking classes as part of an additional master's degree program such as a Master of Public Health For health professionals who enter an academic institution without having gone through a fellowship program they are still expected to perform scholarly activity but don't have the benefit of having done the apprenticeship to learn the skills so unless they decide to find a course obtain a master's degree or find a fellowship they have no way to gain the necessary skills and are at risk of losing their appointment and have no hope of progressing in promotion This text provides a comprehensive toolbox for the academic who needs these skills to survive It serves as a valuable resource for health professionals physicians nurses pharmacists physical therapists and allied professionals as well as scientists and students with the steps necessary to take their educational endeavors from idea to implementation through dissemination Beginning with the concept of What is Scholarship the authors walk the reader through the concepts of how to find your niche look through the literature to check for a gap design a question consider evaluation and outcomes be aware of ethical considerations plan a project look for support find mentorship prepare an abstract present a poster disseminate a project and lead a team All chapters are written by experts in the subject matter

China's Education Aid to Africa Wei Ye, 2023-05-31 China's rise as an aid provider in Africa has caught global attention with China's activity being viewed as the projection of soft power of a neo colonialist kind in an international relations context This book which focuses on China's education aid government scholarships training Confucius Institutes dispatched teachers etc reveals a much more complicated picture It outlines how the divide between the Chinese Ministry of Commerce and the Ministry of Education hinders China's soft power projection how much of China's aid is bound up with an education for economic growth outlook mirroring China's own recent experiences of economic development and how China's aid prioritized to reflect the commercial sector's interests is out of

step with most international development aid which is dominated by education agendas and the campaigns of international organizations and traditional donors this leaves China easily exposed to the charge of neo colonialism This situation also reveals insufficient knowledge production of China and in South South Cooperation Substantial production of Southern knowledge should recognize the international development cooperation architecture as an open system by which both traditional donors and Southern countries transform

Translation as Scholarship Jay Crisostomo,2019-01-14 In the first half of the 2d millennium BCE translation occasionally depicted semantically incongruous correspondences Such cases reflect ancient scribes substantiating their virtuosity with cuneiform writing by capitalizing on phonologic graphemic semantic and other resemblances in the interlingual space These scholar scribes employed an essential scribal practice analogical hermeneutics an interpretative activity grounded in analogical reasoning and empowered by the potentiality of the cuneiform script Scribal education systematized such practices allowing scribes to utilize these habits in copying compositions and creating translations In scribal education analogical hermeneutics is exemplified in the word list Izi both in its structure and in its occasional bilingualism By examining Izi as a product of the social field of scribal education this book argues that scribes used analogical hermeneutics to cultivate their craft and establish themselves as knowledgeable scribes Within a linguistic epistemology of cuneiform scribal culture translation is a tool in the hands of a knowledgeable scholar

Constructing Singapore Michael D. Barr,Zlatko Skrbis,2008 Constructing Singapore studies Singaporean nation building by focusing on two processes elite formation and elite selection It gives primary attention to the role that ethno racial ascription plays in these processes but also considers the input of personal connections personal power class and gender It is a study of the progress of Singapore s state sponsored nation building project to its current state whereby a Singaporean version of Chinese ethno nationalism has overwhelmed the discourse on national and Singaporean identity Based upon archival research and formal interviews this study unpacks the culture of elite governance in Lee Hsien Loong s Singapore today
