improvement The book recommends the imposition of a duty of care to host ISPs to curb the dissemination of unauthorised works and counterfeit goods the ascription of a transparency obligation to host ISPs towards their users and the establishment of a supervisory authority for host ISPs Host ISPs have facilitated the dissemination of content amongst users and the purchase of goods online enabling copyright holders and brand owners to attract a greater audience for their works and goods However their services have attracted a high number of copyright and trade mark violations too Neither Article 14 of the e Commerce Directive nor Article 17 of the Copyright in the Digital Single Market Directive provide a solid response to the issue of host ISPs liability This book is a valuable resource for researchers in IT and IP law and offers a new perspective for resolving online IP disputes
