Europe 1598-1715. [Periods of European history.] Period V. Henry Offley Wakeman, 1894 **Revolutionary Europe, 1789-1815** Henry Morse Stephens, 1896 *Periods of European History Period V* Henry Wakeman, 2014-09-13

From the preface I have not attempted in the following pages to write the history of Europe in the seventeenth century in detail The chronicle of events can be found without difficulty in many other works I have therefore endeavoured as far as possible to fix attention upon those events only which had permanent results and upon those persons only whose life and character profoundly influenced those results Other events and other persons I have merely referred to in passing or left out of account altogether such as for instance the history of Portugal and the Papacy the internal affairs of Spain Italy and Russia Following out this line of thought I have naturally found in the development of France the central fact of the period which gives unity to the whole Round that development and in relation to it most of the other nations of Europe fall into their appropriate positions and play their parts in the drama of the world s progress Such a method of reading the history of a complicated period may of course be open to objection from the point of view of absolute historical truth The effort to give unity to a period of history may easily fall into the inaccuracy of exaggeration The picture may become a caricature or so strong a light may be shed on one part as to throw the rest into disproportionate gloom It would be presumptuous in me to claim that I have avoided such dangers All that I can say is that they have been present to my mind continually as I was writing and that I have been emboldened to face them both by the fact that the history of the seventeenth century lends itself in a very marked way to such a treatment and by the conviction that it is far more important to the training of the human mind and the true interests of historical truth that a beginner should learn the place which a period occupies in the story of the world than have an accurate knowledge of the smaller details of its history To know the meaning and results of the Counter Reformation is some education to know the official and personal names of the Popes none at all The ascendancy of France, 1598-1715 Henry Offley Wakeman, 2025-03-02 In *The Ascendancy of France 1598 1715* Henry Offley Wakeman meticulously examines the sociopolitical and cultural transformations in France during a critical period that saw the nation emerge as a dominant European power Employing a narrative style that weaves together historical analysis with vivid character portraits Wakeman delves into the reigns of significant monarchs particularly focusing on the impact of Cardinal Richelieu and Louis XIV His adept use of primary sources illuminates the complexities of absolutism and the intricate web of alliances wars and court intrigues that defined the era making the text a crucial contribution to the historiography of early modern France Wakeman a distinguished historian with an evident passion for French history drew from an extensive background in European political theory and history His scholarly pursuits enriched by his experience in various academic and cultural institutions enabled him to offer profound insights into the nuances of French governance and its implications for European affairs The depth of his research is a testament to his commitment to elucidating the factors that shaped the

rise of French authority amidst a changing continental landscape This book is an essential read for those interested in the dynamics of power in early modern Europe and the intricate forces that propelled France to the forefront of global politics Wakeman s scholarship not only provides a compelling narrative but also challenges readers to consider the wider ramifications of France s ascent making it a pivotal work for historians students and anyone keen on understanding the foundations of modern European history **Europe, 1789-1815** Henry Morse Stephens,1894 **Europe in the Sixteenth Century 1494-1598** A.H.
