Peripheral Transmodernities South To South Intercultural Dialogues Between The Luso Hispanic World And The Orient:

Peripheral Transmodernities Ignacio López-Calvo, 2012-01-24 This volume is a collection of essays dealing with the critical dialogue between the cultural production of the Hispanic Latino world and that of the so called Orient or the Orient itself including the Asian and Arab worlds As we see in these essays the Europeans cultural others peripheral nations and former colonies have established an intercultural and intercontinental dialogue among themselves without feeling the need to resort to the center metropolis mediation These South to South dialogues tend not to be as asymmetric as the old dialogue between the former metropolis the hegemonic Eurocentric center and the colonies These essays about Hispanic and Latino cultural production most of them dealing with literature but some covering urban art music and film provide vivid examples of de colonizing impetus and cultural resistance In some of them we can find peripheral subjectivities perception of other peripheral racialized and post colonial subjects and their cultures

Latin American Sinographies Ana María Ramírez Gómez, 2025-09-22 Within the world mappings of cultural representation the transatlantic is the route that has monopolized our imaginaries about the self and the other This book studies an alternative trajectory the Latin American travel writing of the journey to China from the 19th century to the dawn of the Cultural Revolution 1843 1966 Through a wide constellation of texts it offers an in depth comparative analysis of how travelers from Colombia Peru and Chile imagined interpreted and represented the different Chinas they witnessed Intercepted mainly by literary criticism the text is prioritized as the main point of departure to contextualize and identify the political as well as the poetical effects that this off the beaten path encounter represented Close attention is also paid to the transformation of the conditions that surrounded the Latin American production of meanings of China as well as the change that China had as an idea throughout these decades Through these pages it is argued that from the voyage of the lettered Creole to the Qing empire to the trip of the red tourist to Communist China this encounter and the writing of it became a space to reimagine and redraw Latin Americanness from other world coordinates

Representations of China in Latin American Literature (1987-2016) Maria Montt Strabucchi, 2023-11-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Representations of China in Latin American Literature 1987 2016 analyses contemporary Latin American novels in which China is the main theme Using China as a multidimensional term it explores how the novels both highlight and undermine assumptions about China that have shaped Latin America s understanding of China and shows China to be a kind of literary imaginary third term which reframes Latin American discourses of alterity On one level it argues that these texts play with the way that China stands in as a wandering signifier and as a metonym for Asia a gesture that essentialises it as an unchanging other On another level it argues that the novels employment of China resists essentialist constructions of identity China is thus shown to be serving as a concept

which allows for criticism of the construction of fetishized otherness and of the exclusion inherent in essentialist discourses of identity. The book presents and analyses the depiction of an imaginary of China which is arguably performative but which discloses the tropes and themes which may be both established and subverted in the novels. Chapter One examines the way in which China is represented and constructed in Latin American novels where this country is a setting for their stories. The novels studied in Chapter Two are linked to the presence of Chinese communities in Latin America. The final chapter examines novels whose main theme is travel to contemporary China. Ultimately in the novels studied in this book China serves as a concept through which essentialist notions of identity are critiqued.

The Routledge Companion to Migration Literature Gigi Adair, Rebecca Fasselt, Carly McLaughlin, 2024-07-30. The Routledge Companion to Migration Literature offers a comprehensive survey of an increasingly important field. It demonstrates the influence of the age of migration on literature and showcases the role of literature in shaping socio-political debates and creating knowledge about the migratory trajectories, lives and experiences that have shaped the post-1989 world. The contributors examine a broad range of literary texts and critical approaches that cover the spectrum between voluntary and forced migration. In doing so they reflect the shift in recent years from the author-centric study of migrant writing to a more inclusive conception of migration literature. The book contains sections on key terms and critical approaches in the field, important genres of migration literature, a range of forms and trajectories of migration with a particular focus on the global South and on migration literature's relevance in social contexts outside the academy. Its range of scholarly voices on literature from different geographical contexts and in different languages is central to its call for and contribution to a pluriversal turn in literary migration studies in future scholarship. This Companion will be of particular interest to scholars working on contemporary migration literature and it also offers an introduction to new students and scholars from other fields. Chapter 15 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives CC BY-NC-ND 4.0 license.

The Mexican Transpacific Ignacio López-Calvo, 2022-12-15. The Mexican Transpacific considers the influence of a Japanese ethnic background or lack thereof in the cultural production of several twentieth and twenty-first century Mexican authors, performers and visual artists. Despite Japanese Mexicans' unquestionable influence on Mexico's history and culture and the historical studies recently published on this Nikkei community, the study of its cultural production and therefore its self-definition has been for the most part overlooked. This book is a continuation of author Ignacio López-Calvo's previous research on cultural production by Latin American authors of Asian ancestry, focusing mostly on literature, theater and visual arts produced by Japanese immigrants in Mexico and their descendants rather than on the Japanese community as a mere object of study. With this interdisciplinary project López-Calvo aims to bring to the fore this silenced community's voice and agency to historicize its own experience.
