This scripted open and go program from math educator Kate Snow will give you the tools you need to teach math with confidence even if it's been years since you learned these concepts yourself. Your child will develop strong math skills and a positive attitude toward math with fun games and real-world applications. All you'll need are this Instructor Guide, the two Student Workbooks (Part A and Part B), and a few simple manipulatives like base ten blocks and fraction tiles to make math come alive for your child. Hands-on incremental lessons that steadily build conceptual understanding. Daily review to ensure children retain what they've learned and master essential skills. Step-by-step examples help your child develop math study skills and greater independence. Games and real-world applications make math fun and relevant. The Instructor Guide is well thought out, extremely easy to follow, and doesn't require the instructor to be good at math; it enables
