Conservation Drones Serge A. Wich, Lian Pin Koh, 2018-05-31 Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up to date data on the distribution and density of species as well as the threats to their habitats in their ongoing attempts to conserve and monitor biodiversity Conservation drones are low cost autonomous and operator friendly unmanned aerial vehicles that can be used for surveying mapping and monitoring both habitat and biodiversity They are fast becoming a valuable complement to ground based surveys and satellite imagery for a wide range of ecological and conservation applications The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia They subsequently founded ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental community This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation

The GPS Manual Steve Dye, Frank Baylin, 1997 A *GPS User Manual* Dale Depriest, 2003 This manual is a complete user manual for Garmin handheld receivers It covers theory and practical applications for gps technology and the receivers that use this technology Representative products for all of the Garmin handheld receivers past and present are explained and tips are given on getting the most out of each model It is designed to augment the user manuals that are supplied with each product but is complete enough to replace them While this manual is Garmin specific it provides a basic understanding of gps devices that is applicable to any gps receiver It was written over a period of 4 years and has been reviewed and tested by hundreds of users over that period It has been used as the reference for training on gps usage Because of its unique approach that develops the theory behind operation as well as specific details it provides a basis that will allow a user to be able to use any gps receiver Skills in the use of a gps will provide assurance and safety for the user Topics extend beyond just operating the unit to actually being able to use it for navigation on the land in the sea or in the air Topics are applicable whether you are hiking or driving to your destination These topics include product operation waypoints routes tracklogs navigation maps and databases product selection features theory accessories and product unique functions
