Kelly, William C. Rivenbark, 2003 This text describes performance budgeting as the integration of the components of performance management planning performance measurement benchmarking and evaluation into the framework of state and local government budgeting The authors present performance budgeting not as a stand alone budgeting technique but as an extension of the traditional budget process that reconciles financial and operational accountability The authors make frequent references to their original research and personal experiences with performance measurement citizen satisfaction surveys and financial management practices They introduce findings from a
