Eloquent Virgins M. McInerney, 2003-10-24 The tales of the virgin martyrs inevitably emphasize the torture and mutilation of beautiful young women To the modern reader these popular texts seem like exercises in sadism but while they could be made to function as vehicles for active misogyny they also provided Medieval women such as Hildegard of Bingen and Joan of Arc with role models who helped them to shape their own extraordinary destinies This book explores the ability of the virgin body to generate contradictory meanings both repressive and liberating depending on who told the tale and how it was told

Redeemed Bodies Gail Corrington Streete, 2009-01-01 Why do religious people choose paths that lead to their deaths as martyrs Why do some who are killed for their faith become known and revered while others do not Gail Streete asks these important and disturbing questions in the context of early Christianity looking at the stories of martyred women such as Thecla Perpetua and Felicitas women whose stories helped shape Christian faith for centuries yet are all but forgotten in the modern world Streete reclaims these stories and relates them to tragic instances of martyrdom in our own world pulling from stories as diverse as the victims of Columbine and female suicide attackers in the Muslim world What do their deaths mean and why do we find their stories so moving

Koet, 2012 In the book presented here one encounters dreams and visions from the history of Christianity Faculty members of the Tilburg School of Theology TST Tilburg University The Netherlands and other Dutch and Flemish experts in theology Late Antiquity and the Middle Ages present a collection of articles examining the phenomenon of dreaming in the Christian realm from the first to the thirteenth century Their aim is to

Asceticism and Its Critics Oliver Freiburger, 2006-10-19 Scholars of religion have always been fascinated by asceticism Some have even regarded this radical way of life the withdrawal from the world combined with practices that seriously affect basic bodily needs up to extreme forms of self mortification as the ultimate form of a true religious quest This view is rooted in hagiographic descriptions of prominent ascetics and in other literary accounts that praise the ascetic life style Scholars have often overlooked however that in the history of religions ascetic beliefs and practices have also been strongly criticized by followers of the same religious tradition as well as by outsiders The respective sources provide sufficient evidence of such critical strands but surprisingly as yet no attempt has been made to analyze this criticism of asceticism systematically This book is a first attempt of filling this gap Ten studies present cases from both Asian and European traditions classical and medieval Hinduism early and contemporary Buddhism in South and East Asia European antiquity early and medieval Christianity and 19th 20th century Aryan religion Focusing on the critics of asceticism their motives their arguments and the targets of their critique these studies provide a broad range of issues for comparison They suggest that the critique of asceticism is based on a worldview differing from and competing with the ascetic worldview often in one and the same historical context The book demonstrates that examining the critics of asceticism helps understand better the complexity of religious traditions and their cultural contexts The comparative analysis moreover shows that the criticism of asceticism reflects a religious worldview as significant and widespread in the history of religions as asceticism itself is
