Person And Object A Metaphysical Study Muirhead Library Of Philosophy:

Person and Object Chisholm, Roderick, M, 2014-06-03 First published in 2002 This is Volume V of seventeen in the Library of Philosophy series on Metaphysics Written in 1976 this book includes amongst others the three Carus Lectures constituting the nucleus of this book were presented before the Pacific Division of the American Philosophical Association in December 1967 and look at the topic of Person and Object The aim of this study is further the concept that by considering certain obvious facts about ourselves we can arrive at an understanding of the general principles of metaphysics *Person and Object* Roderick M. Chisholm, 1979-12 Leibniz Reid Brentano and many other philosophers have held that by considering certain obvious facts about ourselves we can arrive at an understanding of the general principles of metaphysics The present book is intended to confirm this view One kind of philosophical puzzlement arises when we have an apparent conflict of intuitions If we are philosophers we then try to show that the apparent conflict of intuitions is only an apparent conflict and not a real one If we fail we may have to say that what we took to be an apparent conflict of intuitions was in fact a conflict of apparent intuitions and then we must decide which of the conflicting intuitions is only an apparent intuition But if we succeed then both of the intuitions will be preserved Since there was an apparent conflict we will have to conclude that the formulation of at least one of the intuitions was defective And though the formulation may be imbedded in our ordinary language we will have to say that strictly and philosophically a different formulation is to be preferred But to make it clear that we are not rejecting the intuition we are reformulating we must show systematically how to interpret the ordinary formulation into the philosophical one The extent to which we can show this will be one mark our success in dealing with philosophical puzzle Another will be the extent to which our proposed solution contributes to the solution of still other philosophical puzzles **Person and Object** Roderick Chisholm, Roderick, M, 2014-12-22 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company Person and Object Roderick Chisholm, 2014-06-03 First published in 2002 This is Volume V of seventeen in the Library of Philosophy series on Metaphysics Written in 1976 this book includes amongst others the three Carus Lectures constituting the nucleus of this book were presented before the Pacific Division of the American Philosophical Association in December 1967 and look at the topic of Person and Object The aim of this study is further the concept that by considering certain obvious facts about ourselves we can arrive at an understanding of the general principles of metaphysics Franz Brentano's Philosophy After One Hundred Years Denis Fisette, Guillaume Fr  chette, Hynek Janou  ek, 2021-01-11 This volume brings together contributions that explore the philosophy of Franz Brentano It looks at his work both critically and in the context of contemporary philosophy For instance Brentano influenced the phenomenology of Edmund Husserl the theory of objects of Alexius Meinong the early development of the Gestalt theory the philosophy of language of Anton Marty the works of Carl Stumpf in the psychology of tone and many others Readers will also learn the contributions of Brentano s work to much debated contemporary issues in philosophy of mind ontology and the

theory of emotions The first section deals with Brentano s conception of the history of philosophy The next approaches his conception of empirical psychology from an empirical standpoint and in relation with competing views on psychology from the period The third section discusses Brentano s later programme of a descriptive psychology or descriptive phenomenology and some of his most innovative developments for instance in the theory of emotions The final section examines metaphysical issues and applications of his mereology His reism takes here an important place The intended readership of this book comprises phenomenologists analytic philosophers philosophers of mind and value as well as metaphysicians It will appeal to both graduate and undergraduate students professors and researchers in philosophy and psychology

Towards a Theory of Relativity of Truth in Morality and Religion Charles Goossens,1990 This study argues for a model in which moral truth is presented as truth in the perspective of certain social commitments while religious truth is interpreted as truth in the perspective of religious experience It theorizes that relativity need not conflict with universality Truth from the perspective of the outsider is therefore truth without qualification
