Reauthorization of the Higher Education Act of 1965 United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities, 1991. This volume presents transcripts of seven hearings held in May 1991 on the reauthorization of the Higher Education Act of 1965. Of the hearings held in the District of Columbia, the first focused on the Pell Grant and Stafford Loan programs and featured witnesses from around the country addressing educational finance. The second hearing focused on the process of accreditation, certification, and licensing that determines institutional participation in the Federal student aid programs and featured witnesses from educational institutions and professional associations. The final hearing presented the testimony of college executives, representatives of educational associations, and others on Title VI, which supports international education, and Title III, concerned with institutional aid and funding for institutional facilities. The hearings in other cities provided an opportunity for legislators to hear additional suggestions and recommendations from students, teachers, administrators, institutional executives, and state agencies on the reauthorization of higher education programs. Included are the prepared statements of the witnesses as well as additional statements, correspondence, and supplemental material. JB

Student Debt William Elliott III, Melinda K. Lewis, 2017-01-26. Offering answers to essential questions about student debt and many connected issues, this book examines student debt in the United States at every stage of the process, from the banks that issue the loans to the colleges and universities that collect the payments. Student lending in the United States is one of the most controversial issues in contemporary American discourse. Are these loans the only option for Americans who want to attend college and university in order to attain the best careers and have a productive, enjoyable life? Should the predatory lending practices of for-profit colleges and universities be stopped? How can limits be imposed on student lending amounts without preventing students from getting the education they need to succeed? The book explains why so many students are borrowing large amounts of money to attend college, considers whether the cost of higher education is simply too high, and if there should be a cap on how much money students can borrow, explains what is contributing to the rising rate of borrowers defaulting on their loans, and predicts whether the so-called student loan bubble is in danger of popping. The Data and Documents chapter analyzes data gathered from discussions about student debt. This

information enables readers to better understand who is borrowing student loans what the money from the student loans is going toward what individuals have the authority to decide who qualifies for these loans and what is being done to curb wasteful student spending **Legislative Branch Appropriations for Fiscal Year 2004** United States.
