
PRACTICE TOK EXHIBITION: PERFORMANCE GRADE 1 – 2020-2021 SPRING SEMESTER

(23rd February – 1st Full Draft Submission and 4th March – Full Submission)

Introduction

The TOK exhibition explores how TOK manifests in the world around us. It enables students to demonstrate the application of their skills and knowledge, and to pursue their personal interests. TOK exhibition is an *individual* task where specific **objects** of real-life and personal importance are connected with **Internal Assessment (IA) prompts** within one of the TOK themes.

For this task, students are required to create an exhibition of three objects that connect to **one** of the 35 “IA prompts” provided in the “IA prompts” below. Students are encouraged to root their exhibition in one of the TOK themes—either the core theme or one of the optional themes.

Students are required to create an exhibition comprising three objects, or images of objects, and an accompanying written commentary on each object. Students are required to produce a single file containing:

- a title clearly indicating their selected IA prompt
- images of their three objects
- a typed commentary on each object that identifies each object and its specific real-world context, justifies its inclusion in the exhibition and links to the IA prompt (maximum 950 words)
- appropriate citations and references.

Context of an object

The specific real-world context of each object is extremely important to the task. It is, therefore, important that students identify specific objects to discuss rather than using generic objects and generic images from the internet. For example, a discussion and photograph of a student’s baby brother is an example of an object that has a specific real-world context, whereas a generic image of “a baby” from an internet image search is not.

Examples of the diverse kinds of objects students could select include the following:

- A tweet from the President of the United States
- An image of the painting *Guernica* by Pablo Picasso
- The student’s own extended essay (EE)
- A basketball used by the student during their physical education lessons
- The graphic novel *The Colour of Earth* by Kim Dong Hwa
- A painting that the student created in their DP visual arts course
- A refillable water bottle provided to each student in a school as part of a sustainability initiative
- A news article from the popular website *Buzzfeed*
- A photograph of the student playing in an orchestra

The maximum overall word count for the TOK exhibition is **950 words**. This word count includes the written commentaries on each of the three objects. **It does not include:**

- any text contained on/within the objects themselves
- acknowledgments, references (whether given in footnotes, endnotes or in-text) or bibliography.
