Performing Media Activism in the Digital Age Neil

Alperstein, 2021-07-31 Performing Media Activism in the Digital Age breaks new ground by conceptualizing activism as a performance extending beyond public space and the moment of public gatherings to consider the more extended view of social or political movements as mediated social connections The book utilizes primary data extracted from social media platforms by applying a social network analysis SNA approach to the people organizations and media that are trying to advance their particular agendas with an eye toward a better understanding of the ways in which social movements operate in a networked society The goal of social network analysis is to identify social structures within a movement such as

communities or clusters and it seeks to locate influence within those structures Social network analysis as applied to media activism represents an interdisciplinary field that encompasses social psychology sociology as well as graph theory which should suggest this book will be of interest to scholars and students in these and related fields In the digital age social network analysis represents a paradigm shift as analytical and data visualization tools can be applied in an interdisciplinary manner By combining data science and sociology or cultural anthropology one has the means to visualize networks of individuals and organizations engaged in a social movement to see how movements are organized structured into communities clusters and niches and to visualize power structures within social movements to see who is influencing a network over extended periods of time

When Kids Say They're Trans Sasha Ayad,Lisa Marchiano,Stella O'Malley,2023-09-07 Being the parent of a gender questioning child is confusing You want to do what s best for your child but doctors and therapists might make recommendations that conflict with your instincts as a parent the person who best knows your child s unique history challenges and struggles Do you immediately affirm a newly professed gender identity watch and wait or pursue some other path While many books have been written for parents who choose to facilitate their child s gender transition there are almost no books for parents who do not think that social or medical transition is the best option for their child Written by Sasha Ayad Lisa Marchiano and Stella O Malley three mental health professionals who collectively have decades of experience working with trans identified adolescents and their families When Kids Say They re Trans is a resource designed explicitly for those parents who do not think that hasty affirmation or medicalization is the best way to ensure the long term health and well being of their child It is also for those who simply aren t so sure about the best course of action and want to learn the facts before committing to a particular approach At a time when schools institutions and governments increasingly promote ideas about gender that confuse children and even encourage kids to keep secrets from their parents the authors celebrate parental love and engagement as the bedrock that children need to move out into the world As the authors make clear parents who have successfully helped their children navigate gender distress without resorting to surgery and hormones have done so by actively taking the reins not by reflexively outsourcing this responsibility or waiting until they found the ideal therapist or doctor When Kids Say They re Trans tells you all you need to know as a parent to help your child struggling with gender issues and will give you the confidence to trust your own instincts as you guide and support your child on the path toward growth acceptance and maturity

Handbook of Computational Social Science, Volume 1 Uwe Engel,Anabel Quan-Haase,Sunny Liu,Lars E Lyberg,2021-11-10 The Handbook of Computational Social Science is a comprehensive reference source for scholars across multiple disciplines It outlines key debates in the field showcasing novel statistical modeling and machine learning methods and draws from specific case studies to demonstrate the opportunities and challenges in CSS approaches The Handbook is divided into two volumes written by outstanding internationally renowned scholars in the field This first volume focuses on the scope of computational social science ethics

and case studies It covers a range of key issues including open science formal modeling and the social and behavioral sciences This volume explores major debates introduces digital trace data reviews the changing survey landscape and presents novel examples of computational social science research on sensing social interaction social robots bots sentiment manipulation and extremism in social media The volume not only makes major contributions to the consolidation of this growing research field but also encourages growth in new directions With its broad coverage of perspectives theoretical methodological computational international scope and interdisciplinary approach this important resource is integral reading for advanced undergraduates postgraduates and researchers engaging with computational methods across the social sciences as well as those within the scientific and engineering sectors

Electronic Hive Minds on Social Media: Emerging Research and Opportunities Hai-Jew, Shalin, 2019-05-31 Researchers have harnessed the flood of personal information and opinions shared on social media platforms in a variety of ways People communicate not only what they imagine they are purposely sharing but also unintentionally leak information which allows others to glimpse a sense of the subconscious and unconscious at a macro level Electronic Hive Minds on Social Media Emerging Research and Opportunities explores various research techniques to profile the electronic hive mind around social topics as expressed on various modalities of social media from human bot and cyborg social media accounts and proposes new research methods for harnessing public data from social media platforms Highlighting topics such as knowledge sharing swarm intelligence and social psychology this publication is designed for researchers social psychologists practitioners and students in marketing communications mass media and similar fields

Computational Collective Intelligence Ngoc Thanh Nguyen, Bao Hung Hoang, Cong Phap Huynh, Dosam Hwang, Bogdan Trawiński, Gottfried Vossen, 2020-11-23 This volume constitutes the refereed proceedings of the 12th International Conference on Computational Collective Intelligence ICCCI 2020 held in Da Nang Vietnam in November 2020 The 70 full papers presented were carefully reviewed and selected from 314 submissions The papers are grouped in topical sections on knowledge engineering and semantic web social networks and recommender systems collective decision making applications of collective intelligence data mining methods and applications machine learning methods deep learning and applications for industry 4 0 computer vision techniques biosensors and biometric techniques innovations in intelligent systems natural language processing low resource languages processing computational collective intelligence and natural language processing computational intelligence for multimedia understanding and intelligent processing of multimedia in web systems The conference was held virtually due to the COVID 19 pandemic

An Essay Towards the Conversion of Learned and Philosophical Hindus John Brande Morris, 1843

The Gresleys of Drakelowe Falconer Madan, 1899

Disability, Media, and Representations Jacob Johanssen, Diana Garrisi, 2020-02-27 Bringing together scholars from around the world to research the intersection between media and disability this edited collection aims to offer an interdisciplinary exploration and critique of print broadcast and online representations of physical

and mental impairments Drawing on a wide range of case studies addressing how people can be othered in contemporary media the chapters focus on analyses of hateful discourses about disability on Reddit news coverage of disability and education media access of individuals with disabilities the logic of memes and brain tumour on Twitter celebrity and Down Syndrome on Instagram disability in TV drama the metaphor of disability for the nation as well as an autoethnography of treatment of breast cancer Providing a much needed global perspective Disability Media and Representations examines the relationship between self representation and representations in either reinforcing or debunking myths around disability and ways in which academic discourse can be differently articulated to study the relationship between media and disability This book will be of interest to students and researchers of disability studies and media studies as well as activists and readers engaged in debates on diversity inclusivity and the media
