The Authenticity

Industries Michael Serazio,2023-11-07 In recent decades authenticity has become an American obsession It animates thirty years worth of reality TV programming and fuels the explosive virality of one hot social media app after another It characterizes Donald Trump s willful disregard for political correctness and proofreading and inspires multinational corporations to stake activist claims in ways that few woke brands ever dared before It buttresses a multibillion dollar influencer industry of everyday folks shilling their friends with spon con and burnishes the street cred of rock stars and rappers alike But ironically authenticity s not actually real it s as fabricated as it is ubiquitous In *The Authenticity Industries* journalist and scholar Michael Serazio combines eye opening reporting and lively prose to take readers behind the scenes with those who make reality and the ways it tries to influence us Drawing upon dozens of rare interviews with campaign consultants advertising executives tech company leadership and entertainment industry gatekeepers the book slyly investigates the professionals and practices that make people products and platforms seem authentic in today s media culture and politics The result is a spotlight on the power of authenticity in today s media saturated world and the strategies to satisfy this widespread yearning In theory authenticity might represent the central moral framework of our time allaying anxieties about self and society culture and commerce and technology and humanity It infects and informs our ideals of celebrity aesthetics privacy nostalgia and populism And Serazio reveals how these pretenses are crafted backstage for audiences consumers and voters

referred to as Black Friday What is Black Friday Black Friday the day after Thanksgiving in the United States is historically one of the busiest retail shopping days of the year It marks the official beginning to the Christmas shopping season The black in the name comes from the standard accounting practice of using red ink to denote negative values in this case profits and black ink to denote positive values Black Friday is the day when retailers traditionally get back in the black after operating in the red for the previous months It is in the nature of the secret that it should be shared In fact the main function of the secret is to define the codes that regulate how and by whom it can be shared The distinction between those who have the right to share it and those who don't the rightfully initiated and illegitimate impostors is built into the logic of the secret To know a secret therefore does not mean to be informed about its content secrets have very little in common with information rather it implies that you have come to know what it means to know the secret This is to say that you have to become initiated into the technique of acquiring the knowledge of the secret and each secret requires a particular technique of knowing it In effect the knowledge of secrets is by definition technical pragmatic and performative It is based on the practical proficiency in the coded languages used to share secrets the many clandestine signs gestures and innuendos by means of which you make it understood to others that you are in the know and test them whether they are too For if they can read the signs and show you that they do by responding to your gestures with the appropriate responses they thereby identify themselves as members of the community founded on the very practices of sharing secrets you currently perform If they can't however they immediately disqualify themselves as uninitiated into the intimate symbolic bond created by the mutual knowledge of the secret Jan Verwoert
