The rapid emergence of new technologies has revolutionized the way companies build relationships and interact with their customers. Today it's more important than ever to have an emotional understanding of customers and how they feel about a product, service or business, even when your primary interactions are via digital channels. *Affected* goes beyond influencing behaviors to understanding cognition and emotion as a way to better connect with customers in the digital space. In it, Wrigley and Straker offer a new approach, one that examines channel relationships and useful concepts for clarifying and refining the emotional meaning behind company strategy and their relationship to corresponding channels.
