evolution and is essential reading for anyone interested in the machinations of starting a successful business from the ground up and staying there I didn't realise my life had been hijacked until a year after it happened That's Mandy Johnson's take on her introduction into the world of Flight Centre Limited the travel company that divides its workforce into prehistoric families villages and tribes and rewards them with autonomy and incentives From its origins in 1973 as a UK tour company with a single bus called Bollocks FCL revolutionised the travel industry and morphed into a global giant It faced challenges including the War on Terror and SARS that wreaked havoc on business It battled the encroachment of the internet a disastrous internal restructure and a US acquisition that delivered a profit wipe out just months before the global financial crisis And yet each time FCL has come back stronger than before almost doubling in size every five years relying on its Stone Age tribal structure as its platform for success Its founders were two 23 year old veterinarians from Queensland Australia Neither had any business experience and the idea for the company was hatched while celebrating in a Munich beer hall So how did they make it work Mandy Johnson and Katrina Beikoff have enjoyed full access to all the major players in FCL to bring us the full story in this updated edition

Advances in Spatial and Temporal Databases Nikos Mamoulis, Thomas Seidl, Kristian Torp, Ira Assent, 2009-06-30 SSTD 2009 was the 11th in a series of biannual events that discuss new and exciting research in spatio-temporal data management and related technologies

Previously symposia were successfully held in Santa Barbara 1989 Zurich 1991 Singapore 1993 Portland 1995 Berlin 1997 Hong Kong 1999 Los Angeles 2001 Santorini Greece 2003 Angra dos Reis Brazil 2005 and Boston 2007 Before 2001 the series was devoted solely to spatial database management and called SSD From 2001 the scope was extended in order to also accommodate temporal database management in part due to the increasing importance of research that considers spatial and temporal aspects jointly SSTD 2009 introduced several innovative aspects compared to previous events There was a demonstrations track which included ten presentations of systems related to the topics of interest In addition to that the event included a poster session with seven presentations of innovative research developed at an early stage For the first time in the SSTD series the best paper of the symposium was awarded and a few high quality papers were selected and the authors were invited to submit extended versions of their work to a special issue of the *Geoformatica* journal Springer Prior to the symposium there was a two day advanced seminar which hosted three half day tutorials on state of the art topics within spatio-temporal data management held by distinguished international researchers
