Passive and Active Measurement Neil Spring, George F. Riley, 2011-03-11 This book constitutes the refereed proceedings of the 12th International Conference on Passive and Active Measurement PAM 2011 held in Atlanta GA USA in March 2011 The 24 revised full papers presented were carefully reviewed and selected from 56 submissions The papers were arranged into seven sessions covering passive measurement wireless models bandwidth automated bots route avoidance interdomain protocols timing and diagnosis

Netflix Nations Ramon Lobato, 2019-01-08 How streaming services and internet distribution have transformed global television culture Television once a broadcast medium now also travels through our telephone lines fiber optic cables and wireless networks It is delivered to viewers via apps screens large and small and media players of all kinds In this unfamiliar environment new global giants of television distribution are emerging including Netflix the world's largest subscription video on demand service Combining media industry analysis with cultural theory Ramon Lobato explores the political and policy tensions at the heart of the digital distribution revolution tracing their longer history through our evolving understanding of media globalization Netflix Nations considers the ways that subscription video on demand services but most of all Netflix have irrevocably changed the circulation of media content It tells the story of how a global video portal interacts with national audiences markets and institutions and what this means for how we understand global media in the internet age Netflix Nations addresses a fundamental tension in the digital media landscape the clash between the internet's capacity for global distribution and the territorial nature of media trade taste and regulation The book also explores the failures and frictions of video on demand as experienced by audiences The actual experience of using video platforms is full of subtle reminders of market boundaries and exclusions platforms are geo blocked for out of region users this video is not available in your region catalogs shrink and expand from country to country prices appear in different currencies and subtitles and captions are not available in local languages These conditions offer rich insight for understanding the actual geographies of digital media distribution Contrary to popular belief the story of Netflix is not just an American one From Argentina to Australia Netflix's ascension from a Silicon Valley start up to an international television service has transformed media consumption on a global scale Netflix Nations will help readers make sense of a complex ever shifting streaming media environment

Writers, 1999: A-M Kartik Chandra Dutt, 1999 The End Century Edition Of The Who's Who Of Indian Writers Is An Invaluable Work Of Reference For Writers Publishers Readers And Students Of Literary History For Ease Of Use The Entries Are Arranged Alphabetically By Surname Or Part Of The Name Preferred By The Writers Themselves A Large Number Of Cross References Are Provided To Facilitate The Location And Identification Of The Writers *Who's who of Southern*

Africa, 1987 Vols for 1967 70 include as a section Who's who of Rhodesia Mauritius Central and East Africa *Margaret Atwood's Aesthetics* Dunja M. Mohr, Kirsten Sandrock, 2025-03-31 Perhaps more timely than ever Margaret Atwood's *Aesthetics* offers novel perspectives on both contemporary and canonical topics in Margaret Atwood's work with a special focus on the intersections of literature and politics Arguably one of the most political writers of our times Atwood's oeuvre subtly and overtly entangles readers in the dialectics of personal and political power asymmetries intrinsic to her aesthetic practices The collection takes its cue from the concept of the artpolitical as coined by Crispin Sartwell whose afterword addresses Atwood's aesthetic and imaginative material world construction and explores the interrelationship between literatures and aesthetic as well as political systems in Atwood's works Individual chapters of Margaret Atwood's *Aesthetics* contribute to increasingly burning questions concerning the relevance of literature today by drawing on a variety of critical perspectives including Anthropocene studies gender intersectionality the nonhuman and the posthuman Mikhail Bakhtin's carnivalesque risk studies nationhood intermediality and teaching Chapters offer fresh views on some of Atwood's most prominent works such as *The Handmaid's Tale* and *The Testaments* and their transmedial adaptations while other chapters focus on Atwood's latest publications as well as on under researched works including her graphic novels and her web serialized publications Margaret Atwood's *Aesthetics* provides unique insights into the aesthetic and political power of

Atwood's oeuvre arguing that literary and media representations and cultural adaptation practices contain a significant transformative potential that reaches beyond the page

Creators Take Control Edward Lee, 2023-03-28 A leading legal scholar offers a compelling new theory to explain the meteoric rise of non fungible tokens NFTs and their impact on art business entertainment and society and explains how they are revolutionizing our understanding of ownership If you buy an NFT do you own anything Critics say no Then why are people spending so much money to own them to the tune of 27 billion in 2021 And why are big businesses and venture capital firms investing hundreds of millions to develop NFTs for people's use in the metaverse a purely imaginary world In Creators Take Control Edward Lee offers a compelling new theory he calls Tokenism that answers these perplexing questions Using vivid examples Lee lucidly explains how NFTs operate and how they fundamentally change our understanding of ownership Tokenism is an artistic cultural and technological movement that creates value in a new kind of ownership of a new type of property symbolized by a virtual token through a process of technological abstraction and artificial scarcity effectuated by NFTs Ownership becomes virtual What Cubism did in radically changing the twentieth century perspective of creating and viewing art through cubes Tokenism does today in altering our perspective of owning art and other things through tokens Both movements radically reimagine what's possible Creators and businesses have seized upon this profound transformation In a short time they have developed a new market for digital art important new rights for creators innovative business models based on decentralized collaboration and a new type of interactive ownership that enables identity community and patronage through NFTs These innovations are just the start of revolutionary changes to society Lee shows how NFTs create a new form of decentralized intellectual property or De IP Comparable to the movement to decentralized finance DeFi De IP empowers creators to take control of their artistic productions and livelihood Lee's intellectual tour de force is filled with practical insights and hope for fostering creativity and a Virtual Renaissance for the ages
