Cybernetic Circulation Complex Nick Dyer-Witheford, Alessandra Mularoni, 2025-02-11 An anti capitalist guide to breaking the power of Big Tech Big Tech firms dominate the global economy But what value do they actually produce In this brilliant survey of global tech economy Nick Dyer Witheford and Alessandra Mularoni argue that the role of firms like Amazon and Google Palantir and Uber is in the automation of circulation By applying digital technologies to processes of market exchange everything from advertising and shopping to logistics and financial services Big Tech aims to subject these activities to the level of control and predictability that capital has secured in industrial production But there is a way out of the multiple crises that Big Tech has helped precipitate If we are to break their grip on the global economy then it'll take more than just antitrust legislation or reducing individual time online By understanding the central role Big Tech plays in contemporary capitalism Dyer Witheford and Mularoni argue that what is required instead is a new ambitious and comprehensive program of democratic collective planning that can move us beyond capitalism Cybernetic Circulation Complex offers not only a compelling analysis of the power of Big Tech and their role in our current global crises but a roadmap for a new form of life biocommunism a digital degrowth that can help us steer between the double boundaries of ecological sustainability and equitable social development

Disconnected Milan Frankl, 2025-02-25 Disconnected Exploring the Decline of Social Networks examines the future of social networks highlighting their transformation from community builders to sources of misinformation and frustration Using interdisciplinary insights it uncovers the complex interplay of technological social and cultural factors behind this shift It discusses the impact on individuals businesses and society proposing pathways to a healthier digital environment The book delves into the fascinating journey of social networks tracing their evolution from tools that fostered community building to platforms that can sometimes spread misinformation It

explores how privacy issues are crucial in shaping user experiences and trust. *Disconnected* also examines the phenomenon of algorithmic polarization where algorithms create echo chambers and contribute to the spread of disinformation. The author explores the social and cultural factors that influence social networks. Additionally, he includes case studies that highlight the real-world impacts of social networks on individuals, businesses, and society as a whole. Readers will discover practical solutions that offer pathways to creating a healthier digital environment, enable recognition of misinformation and privacy issues more effectively, as well as gain strategic insights that will help navigate and influence the future of social networks.

Under Assault Dennis Molinaro, 2025-11-18
FOREWORD BY CHERIE WONG National security expert Dennis Molinaro reveals the shocking details of Beijing's five decades-long effort to influence and interfere in Canadian political life. From cultivating future political leaders at the end of the Cultural Revolution to the foreign interference scandals that have shaken present-day Ottawa, this definitive book addresses one of the most urgent issues of our time. Amidst heightened tensions between Western nations and China, Canadians have found themselves astonished by hostage crises, cyberattacks, harassment of members of our government, and theft of intellectual property worth untold billions of dollars. Guided by Molinaro's experience as a historian and China specialist, *Under Assault* focuses on the actions of the People's Republic of China's government and its governing party, the Chinese Communist Party, against Canada during the past fifty years. From Prime Minister Pierre Elliott Trudeau's earliest journeys through the Middle Kingdom prior to his election to Parliament in the 1960s, the communist government of the PRC has perceived Canada as a staging ground for spying on and pressuring its ultimate target, the United States. When Canada's first tech giant, Nortel, was plundered of intellectual property by digital spies while Canada was manipulated into advocating against the independence of Taiwan, and as Chinese Canadians were targeted in the country where they thought they'd escaped Mao's terrors, Canada's leaders have too often seen only what they want to see in China: an emerging market of inestimable value and fertile soil for democratic change for a long tyrannized people. Generations of Communist leadership have gladly allowed Canada's government to labour under these misapprehensions, even when the evidence of China's spying, theft, and harassment of Canadian citizens has been happening right before its eyes. Canada has rarely allowed itself to believe what the rest of the world has long understood. Informed by numerous interviews with generations of Canadian politicians, diplomats, and bureaucrats, members of diaspora communities targeted by China, who have endured this harassment for too long, as well as by new revelations from recently declassified CSIS documents, *Under Assault* is a timely eye-opening account of a country compromised by its own illusions in a time of rising global conflict and a burgeoning new world order.
