This evidence based text includes an insightful review profiling the latest peer reviewed research of holistic approaches commonly used in rehabilitation. Students and practitioners are now able to evaluate the efficacy of these approaches from the evidence that is reported. New to the Third Edition: The latest summary of findings in energy medicine and bio energetics applied to rehabilitation therapies. Updates on randomized control trials. Reviews of evidence of efficiency. Energy techniques as a way of returning healing to health care. Professionals will also be excited to have at their hands a new chapter describing the latest discoveries in the science that helps explain how these therapies may work. It appears that the future of health care will be based on this unfolding science of energy medicine and vibration. Professor Davis reads the most updated reports of the latest quantum science and then translates this information into meaningful ideas that relate to what therapists observe every day with patients in their case.
