surrounding the mind and body often go unnoticed during research and are only partially reported in the conclusions. *Experiencing the Body in Yoga Practice: Meanings and Knowledge Transfer* examines this gap. It presents the application of a contemplative way of thinking and proceeding in qualitative social research and a first person perspective focusing on experiencing lived body and knowledge transfer in hatha yoga. It analyzes how the mind focuses and stops working, proceeds in the finite province of the meaning of yoga, how the body produces emotions and deals with them during yoga sessions, and how the knowledge is transferred by using the body in some linguistic and cultural context. The book will be of interest to sociologists and social scientists who want to concentrate on and analyze the experiences of the body from contemplative and phenomenological perspectives. It is also key reading for all practitioners dealing with body and bodywork such as in sports, recreational activities, physical education, rehabilitation, physical work, educational activities, etc. *Yoga Journal*, 1994-09.
