Geiger,2021-05-25

Geiger provides an in depth history of the remarkable transformation of higher education in the United States in the decades after World War II taking readers from the GI Bill and the postwar expansion of higher education to the social upheaval of the 1960s and 1970s desegregation and coeducation and the challenges confronting American colleges today Shedding light on the tensions and triumphs of an era of rapid change the author shows how American universities emerged after the war as the world s most successful system for the advancement of knowledge how the pioneering of mass higher education led to the goal of higher education for all and how the selectivity sweepstakes for admission to the most elite schools has resulted in increased stratification today Geiger identifies 1980 as a turning point when the link between research and economic development stimulated a revival in academic research and the ascendancy of the modern research university that continues to the present Sweeping in scope this book demonstrates how growth has been the defining feature of modern higher education but how each generation since the war has pursued it for different reasons It provides the context we need to understand the complex issues facing our colleges and universities today from rising inequality and skyrocketing costs to deficiencies in student preparedness and lax educational standards From publisher description *Negotiation: Closing Deals, Settling Disputes, and Making Team Decisions* David S. ENTERPRISE delivers timely useful information on careers small business and personal finance *Neighborhood Democracy* Richard Guarasci, 2023-07-03 Higher education and America stand at a perilous moment brought about by economic and social inequality racism and the fracture of civic cohesion and structures From its origins the mission of American higher education was to promote democratic governance and a free fair and orderly society through the education of responsible citizens Just as its mission has become more urgent it is being undermined as colleges and universities find themselves trapped in a fiscal crisis that threatens their very institutional viability a crisis in large part brought about by the very perpetuation of economic and racial inequity and the consequent erosion of consensus about civic purpose and vision This book argues that higher education can and must again take leadership in promoting the participatory processes and instilling the democratic values needed to build a vibrant and fair society How to do that when as Guarasci argues a majority of colleges and universities are floundering under a business model that generates insufficient net revenue while making college unaffordable Guarasci offers a model of civic mission and engagement whereby through relatively modest investment colleges can develop reciprocal partnerships with local institutions civic and business groups to raise the quality and outcomes of K 12 education promote local entrepreneurship and community involvement raise incomes and increase the attainment of postsecondary education to benefit the wider national economy and colleges around the region and country He demonstrates how civic engagement can revitalize communities and generate developmental and foundation funding Vividly illustrated by the examples of success of students from the shadow community to which Wagner College committed its energies and resources by the stories of the local schools and their principals and the voices of local partners this book offers a compelling and detailed account of what it takes to transform an institution and a neighborhood and a model of renewal A Co Publication with AAC U
