Adweek, 2009-04 *Franchise Era*, Fleury James Fleury, 2019-04-01

As Hollywood shifts towards the digital era, the role of the media franchise has become more prominent. As such, the collection explores the production, distribution, and marketing of franchises as a historical form of media making, analysing the complex industrial practice of managing franchises across interconnected online platforms. Examining how traditional media incumbents like studios and networks have responded to the rise of new entrants from the technology sector such as Facebook, Apple, Amazon, Netflix, and Google, the authors take a critical look at the way new and old industrial logics collide in an increasingly fragmented and consolidated mediascape.
