

OF MODERN POETRY

The poem of the mind in the act of finding
What will suffice. It has not always had
To find: the scene was set; it repeated what
Was in the script.

Then the theatre was changed
To something else. Its past was a souvenir.

It has to be living, to learn the speech of the place.
It has to face the men of the time and to meet
The women of the time. It has to think about war
And it has to find what will suffice. It has
To construct a new stage. It has to be on that stage
And, like an insatiable actor, slowly and
With meditation, speak words that in the ear,
In the delicatest ear of the mind, repeat,
Exactly, that which it wants to hear, at the sound
Of which, an invisible audience listens,
Not to the play, but to itself, expressed
In an emotion as of two people, as of two
Emotions becoming one. The actor is
A metaphysician in the dark, twanging
An instrument, twanging a wiry string that gives
Sounds passing through sudden rightnesses, wholly
Containing the mind, below which it cannot descend,
Beyond which it has no will to rise.

It must
Be the finding of a satisfaction, and may
Be of a man skating, a woman dancing, a woman
Combing. The poem of the act of the mind.

Peter Howarth

Modern Poetry In English Literature:

The Cambridge Introduction to Modernist Poetry Peter Howarth, 2011-11-10 Modernist poems are some of the twentieth century's major cultural achievements but they are also hard work to read. This wide-ranging introduction takes readers through modernism's most famous poems and some of its forgotten highlights to show why modernists thought difficulty and disorientation essential for poetry in the modern world. In-depth chapters on Pound, Eliot, Yeats and the American modernists outline how formal experiments take on the new world of mass media, democracies, total war and changing religious belief. Chapters on the avant-garde and later modernism examine how their styles shift as they try to re-make the community of readers. Howarth explains in a clear and enjoyable way how to approach the forms, politics and cultural strategies of modernist poetry in English.

A History of Modern Poetry: From the 1890's to the high modernist mode David Perkins, 1976 This is the first of two volumes presenting the history of English and American poetry in the twentieth century. It covers the formative period during which the Romantic traditions of the past were abandoned.

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

A History of Modern Poetry David Perkins, 1987 This study of British and American poetry from the mid 1920s to the recent past clarifies the complex interrelations of individuals, groups and movements and the contexts in which the poets worked.
