proposes a radical new approach radical in that it does away with MPT in favor of a more intuitive common sense approach practiced by business people in their own affairs everyday cash returns on cash investments In a profession utterly lacking a historical sensibility Peris writes One periodically needs to ask why we do things the way we do how we got here and whether perhaps there is a better way Balancing detailed historical evidence with a practitioner s real world expertise Peris asks the right questions and provides a solution that makes sense in today s challenging investing landscape

Modern Portfolio Theory, 1950 to Date Edwin J. Elton, 2010 Portfolio theory is a well developed paradigm There are excellent textbooks on the subject Of course we are especially partial to our own Modern Portfolio Theory and Investment Analysis There are also good reviews in more advanced doctoral level texts such as Ingersoll 1987 or Huang and Litzenberger 1988 Finally good review articles such as Constantinides and Malliaris 1995 exist Therefore instead of writing one more review article we will be more selective and our discussion will be rather eclectic This paper will present four topics we find of particular interest Rather than attempting to survey all articles or all issues on each topic we will discuss what we find of special interest and importance We will attempt to convey where the field is today and where it is headed in the future
