The Oxford Handbook of Local Competitiveness David B. Audretsch, Albert N. Link, Mary Lindenstein Walshok, 2015 An analysis of what influences and shapes local competitiveness and what places can do to enhance their economic performance

The Normalization of the Radical Right Vicente Valentim, 2024-09-02 Radical right behavior is increasing across Western democracies often very quickly Previous research has shown however that political attitudes and preferences do not change as quickly Vicente Valentim argues that the role of social norms as drivers of political behavior is crucial for understanding these patterns Building on a norms based theory of political supply and demand he argues that growing radical right behavior is driven by individuals who already had radical right views but who did not act on those views because they thought that they were socially unacceptable If these voters do not express their preferences politicians can underestimate how much latent support there is for radical right policy This leaves the radical right with less skilled leaders who are unable to mobilize even radical right voters to support them However if politicians realize that there is more private support for radical right policy than is typically observable they have an incentive to run for politics with a radical right platform and to mobilize silent radical right views Their electoral success in turn leads to radical right individuals becoming more comfortable in displaying their views and impels more politicians to join the radical right The book's argument makes us rethink how political preferences translate into behavior shows how social norms affect the interaction of political supply and demand and highlights how a political culture that promotes inclusion can be eroded *Oxford Studies in Democratization* is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

Nationalism in Contemporary Europe Andrzej Marcin Suszycki, 2019-01-01 This book proposes a conceptualisation of nationalism with a multilevel operational character It offers three different perspectives on nationalism that consider both the discursive structure and the discursive agency of nationalism It also demonstrates a number of intra phenomenal and extra phenomenal constraints on nationalism This book underlines that nationalism in contemporary Europe should not be regarded in terms of methodological homogeneity and conceptual uniformity ideological rigidity or strategic consistency but rather as a contested segmented bounded and contextual phenomenon Andrzej Marcin Suszycki is adjunct professor Privatdozent at the Faculty of Economics and Social Sciences of the University of Potsdam

Education for Civic and Political Participation Reinhold Hedtke, Tatjana Zimenkova, 2013 Participation as an element of active citizenship in democracies is a key project of international and national educational policy Institutionalized approaches for compulsory schools provide participatory access to all young European citizens But does this picture depict the possibilities and practices of participation

appropriately Can this standard approach to participation be translated into action in view of diverse polities policies political cultures institutions and practices of participation This book explores what prerequisites must be given for a successful implementation of such a comprehensive international project

International Handbook of Practical Theology Birgit Weyel, Wilhelm Gräb, Emmanuel Lartey, Cas Wepener, 2022-09-06 Practical theology has outgrown its traditional pastoral paradigm The articles in this handbook recognize that faith spirituality and lived religion within and beyond institutional communities refer to realms of cultures ritual practices and symbolic orders whose boundaries are not clearly defined and whose contents are shifting The International Handbook of Practical Theology offers insightful transcultural conceptions of religion and religious matters gathered from various cultures and traditions of faith The first section presents concepts of religion Chapters have to do with considerations of the conceptualizing of religion in the fields of anthropology community family institution law media and politics among others The second section is dedicated to case studies of religious practices from the perspective of their actors The third section presents major theoretical discourses that explore the globally significant diversity and multiplicity of religion Altogether sixty one authors from different parts of the world encourage a rethinking of religious practice in an expanded transcultural globalized and postcolonial world

Security and Safety in the Era of Global Risks Radomir Compel, Rosalie Arcala-Hall, 2021-07-28 The concept of risk in global life has not been fully understood and explored and this book attempts to examine what it entails in the fast changing interconnected and complex world As a foundational component of safety systems risk has been considered relatively simple predictable and therefore assessable and manageable phenomenon Social and political sciences prefer the terminology of security to capture the dimension of risk which is more complex and more consequential to survival Risk has become more human made and intentional today and this book explores innovative approaches and engages in theoretical and policy debates to capture its political and security dimensions

Poverty Reduction in a Changing Climate Hari Bansha Dulal, 2013-02-14 Poverty reduction challenges in the twenty first century are not the same as those from the previous century The shift is due in no small part to climate change and climate related weather disasters such as extreme flood and drought The magnitude and frequency of such events are only expected to increase in the coming decades affecting more and more impoverished people across the globe Poverty Reduction in a Changing Climate edited by Hari Bansha Dulal is a work which discusses the new innovations and funding mechanisms which have emerged in response to the rise of climate related challenges in the twenty first century Dulal and the text s contributors explore the synergies and implications of those innovations with respect to poverty alleviation goals This collection brings together a range of scholars from different backgrounds ranging from political science economics public

policy and environmental science all analyzing poverty reduction challenges and opportunities from different forward thinking perspectives

Our Social World Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2018-11-29 Our Social World Introduction to Sociology inspires students to develop their sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis Organized around the Social World model a conceptual framework that demonstrates the relationships among individuals the micro level organizations institutions and subcultures the meso level and societies and global structures the macro level Jeanne H Ballantine Keith A Roberts and Kathleen Odell Korgen use this framework to help students develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of discrete subjects The Seventh Edition includes new coverage of climate change the influence of robots and artificial intelligence on workers race relations in the Trump era issues related to transgender identity and gender fluidity sexual harassment in the workplace and the MeToo movement declining marriage rates the impact of tracking for students at all academic achievement levels smoking as an example of health and inequality in the US gun violence and the student movement to control access to guns social media and Russian interference in the 2016 election

European Identity Kenneth Keulman, Agnes Katalin Koós, 2014-08-20 The further evolution of the European Union is mainly dependent on how its citizens relate to their fellow Europeans speaking a score of languages and belonging to a variety of cultures This book addresses the question of whether a new sense of collective self identification labeled European identity a special form of socio territorial identities is emerging Collective identities are works in progress they entail a salient strategic activist and future oriented dimension Divergent strategic goals of the constituent groups induce a perpetual contestation and negotiation of the group identity a process that in the case of the EU is intensified by the continuously changing boundaries and institutional structure of the super polity To confront these challenges this book has a double focus The first part weighs in on the feasibility of a

European identity in light of what the two main paradigms in the field primordialism and constructivism can predict The second part maps the social forces that are either favorable or inimical to the creation of a common social identity on the continent Both parts develop hypotheses about the processes we witness and test them with the available empirical data Part II distinguishes between passive and active supporters of the integration project besides the Euroskeptical segment of the public Provision of public goods by regional integration is believed to explain passive permissiveness while the main impetus for integration comes from those who may reap above average benefits from it This book contends that the groups of active supporters have historically been changing within the Union namely the political Left and Right are changing their roles in negotiating future developments Yet the evolution of the EU is also shaped by the solutions adopted to accommodate ethnic and cultural diversity The empirical tests involve opinion survey data taken from the Eurobarometer series World Value and European Social Surveys and the International Social Survey Programme expert ratings as well as party elite documents from the Manifesto Project Database

Local Government Reforms in Countries in Transition Frederick A. Lazin, Matt Evans, Vincent Hoffmann-Martinot, 2008-05-01 Local Government Reforms in Countries in Transition explores the impacts that the end of the Cold War and increased globalization have had on government around the world The decentralization of national governments has led to a greater role for local governments public administration and democratic representation are the new arena of local governments the world over Focusing not only on countries from the former Soviet Union but also on Israel China South Africa and Egypt the contributors to this volume present a truly global investigation of countries experiencing governmental transformation

Nested Games of External Democracy Promotion Rainer Thiel, 2010-10-10 Nested Games of External Democracy Promotion develops a game theoretic model that explains how an external actor influences the strategic interaction between an authoritarian regime and a democratic opposition In a multiple arena approach the confrontation between regime and opposition on the domestic level is nested inside a game on the international level at which the regime is simultaneously entangled with a democracy promotion actor As a case study the book formally reconstructs how United States democracy assistance influenced the Polish liberalization process between 1980 and 1989 The process tracing of its causal mechanisms is extensive and builds on data previously not recorded With regard to Cold War history new light is brought into U S American policies and strategies behind the Iron Curtain

The Reluctant Economist Richard A. Easterlin, 2004-04-26 Where is rapid economic growth taking us Why has its spread throughout the world been so limited What are the causes of the great twentieth century advance in life expectancy Of the revolution in childbearing that is bringing fertility worldwide to near replacement levels Have free markets been the source of human improvement Economics provides a start on these questions but only a start argues economist Richard A Easterlin To answer them calls for merging economics with concepts and data from other social sciences and with quantitative and qualitative history Easterlin demonstrates this approach in seeking answers to these and other questions about world or American

experience in the last two centuries drawing on economics demography sociology history and psychology The opening chapter gives an autobiographical account of the evolution of this approach and why Easterlin is a reluctant economist

State and Environment Andreas Duit, 2014-05-30 This volume of comparative studies documents the continuing relevance of the state in environmental politics and policy The book also demonstrates the analytical power of the comparative approach to the study of environmental politics and policy offering cross national comparisons of environmental governance in both developed and developing countries Some chapters are based on qualitative studies from a small number of countries others offer statistical analyses of quantitative data from many more countries over a longer time period

Reconceptualizing Development in the Global Information Age Manuel Castells, Pekka Himanen, 2014-08-29 The conditions in which development the process by which people individually and collectively enhance their capacities to improve their lives according to their values and interests operates have significantly changed in the global information age a period characterized by the technological revolution in information and communication the rise of the networking form of social organization and the global interdependence of economies and societies This volume aims to redefine the means and goals of development in this new context first by characterizing the specific mode of development informational development that the authors consider to be the driver of the creation of material wealth in the twenty first century secondly by reconceptualizing human development as the fulfilment of human wellbeing in the multidimensionality of the human experience ultimately affirming dignity as the supreme value of development thirdly by examining the relationship between informational development and human development After first setting out its analytical framework the book brings together a diverse set of empirically rich case studies to illustrate this investigation from across the globe Silicon Valley Costa Rica Chile South Africa Finland the European Union and China and concludes by attempting to reconceptualize development It raises important questions and provides observations including examining the concept of dignity as development to contribute to a policy debate that should provide specific answers linked to the conditions of each society and be enacted by democratic institutions in a concerted global effort to save humankind while there is still time **Norm Antipreneurs and**

the Politics of Resistance to Global Normative Change Alan Bloomfield, Shirley V. Scott, 2016-10-04 Over recent decades International Relations scholars have investigated norm dynamics processes at some length with the norm entrepreneur concept having become a common reference point in the literature The focus on norm entrepreneurs has however resulted in a bias towards investigating the agents and processes of successful normative change This book challenges this inherent bias by explicitly focusing on those who resist normative change norm antipreneurs The utility of the norm antipreneur concept is explored through a series of case studies encompassing a range of issue areas and contributed by a mix of well known and emergent scholars of norm dynamics In examining the complexity of norm resistance particular attention is paid to the nature and intent of the actors involved in norm contestation the sites and processes of resistance the strategies and tactics

antipreneurs deploy to defend the values and interests they perceive to be threatened by the entrepreneurs and whether it is the entrepreneurs or the antipreneurs who enjoy greater inherent advantages This text will therefore be of interest to scholars and students of International Relations International Law Political Science Sociology and History *Young Citizens and New Media* Peter Dahlgren, 2013-10-11 This book integrates four distinct topics young people citizenship new media and learning processes When taken together these four topics merge to define an arena of social and research attention that has become compelling in recent years The general international concern expressed of declining democratic engagement and the role of citizenship today becomes all the more acute when it turns to younger people At the same time there is growing attention being paid to the potential of new media especially internet and mobile telephony to play a role in facilitating newer forms of political participation It is clear that many of the present manifestations of new politics in the extra parliamentary domain not only make sophisticated use of such media but are indeed highly dependent on them With an impressive array of contributors this book will appeal to those interested in a number of spheres including media and cultural studies political science pedagogy and sociology Our Social World: Condensed Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2017-06-26 Our Social World Introduction to Sociology Condensed inspires students to develop their sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis The award winning author team of Jeanne H Ballantine Keith A Roberts and Kathleen Odell Korgen organizes the text around the Social World Model a conceptual framework that demonstrates the relationships among individuals the micro level organizations institutions and subcultures the meso level and societies and global structures the macro level The application of this model across chapters helps students practice using the three levels of analysis and view sociology as an integrated whole rather than a set of discrete subjects The Fifth Edition of the Condensed version is adapted from Our Social World Introduction to Sociology and is one third shorter by streamlining boxes and the main narrative and combining four chapters into two Family Education and Politics Economics New and Key Features A new full length chapter on health illness and healthcare has been added Several chapters have been reorganized with updated data added studies and newly emerging emphases in sociology Six new Sociologists in Action features added Four new Engaging Sociology features added with new opportunities for data analysis by students 100 new or updated Tables and Figures nearly 500 new references and dozens of older references removed Many sentences and definitions in the book have been revised for brevity and clarity and the glossary has been updated for better correspondence with the text Links to exceptional teaching resources from A S A s TRAILS Teaching Resources and Innovation Library for Sociology available in SAGE coursepacks MCAT Guide maps chapter content to Foundational Concepts and Content Categories in Section 3 of the MCAT test available in SAGE coursepacks

Immigration, Integration, and Security Ariane Chebel D'Appollonia, Simon Reich, 2008-05-01 Recent acts of terrorism in Britain and Europe and the events of 9 11 in the United States have greatly influenced immigration security and

integration policies in these countries Yet many of the current practices surrounding these issues were developed decades ago and are ill suited to the dynamics of today s global economies and immigration patterns At the core of much policy debate is the inherent paradox whereby immigrant populations are frequently perceived as posing a potential security threat yet bolster economies by providing an inexpensive workforce Strict attention to border controls and immigration quotas has diverted focus away from perhaps the most significant dilemma the integration of existing immigrant groups Often restricted in their civil and political rights and targets of xenophobia racial profiling and discrimination immigrants are unable or unwilling to integrate into the population These factors breed distrust disenfranchisement and hatred factors that potentially engender radicalization and can even threaten internal security The contributors compare policies on these issues at three relational levels between individual EU nations and the U S between the EU and U S and among EU nations What emerges is a timely and critical examination of the variations and contradictions in policy at each level of interaction and how different agencies and different nations often work in opposition to each other with self defeating results While the contributors differ on courses of action they offer fresh perspectives some examining significant case studies and laying the groundwork for future debate on these crucial issues
