Power, Legitimacy and the Public Sphere Amin Sharifi Isaloo, 2017-04-28 A ground breaking study of political transformations in non Western societies this book applies anthropological sociological and political concepts to the recent history of Iran to explore the role played by a ritual theatrical performance Ta'ziyeh and its symbols on the construction of public mobilisations With particular attention to three formative phases the 1978-79 Islamic Revolution the 1980-88 Iran Iraq War and the 2009 Green Movement the author concentrates on the relations between symbols of the ritual performance and the public sphere to shed light on the ways in which the symbols of Ta'ziyeh were used to claim political legitimacy Thus the book elucidates how symbols and images of a ritual performance can be utilised by tricksters such as political actors and fanatical religious leaders to take advantage of the prolongation of a state of transition within a society and so manipulate the public in order to mobilise crowds and movements to fulfil their own interests and concerns An insightful analysis of political mobilisation explained in terms of a set of interrelated master concepts such as liminality trickster and schismogenesis Power Legitimacy and the Public Sphere integrates theoretical empirical and diagnostic perspectives in order to investigate and illustrate links between the public sphere and religious and cultural rituals As such it will appeal to scholars of sociology politics and anthropology with interests in social theory public mobilisations and political transformation

Constructing Islam on the Indus Hasan Ali Khan, 2016-08-08 This book represents the first serious consideration of Ismaili Shia esotericism in material and

architectural terms as well as of pre modern conceptions of religious plurality in rituals and astrology Sufism has long been reckoned to have connections to Shi'ism but without any concrete proof The book shows this connection in light of current scholarly work on the subject historical sources and most importantly metaphysics and archaeological evidence The monuments of the Suhrawardi Order which are derived from the basic lodges set up by Pir Shams in the region constitute a unique building archetype The book's greatest strength lies in its archaeological evidence and in showing the metaphysical commonalities between Shi'ism, Ismailism and the Suhrawardi Sufi Order both of which complement each other In addition working on premise and supposition certain reanalysed historical periods and events in Indian Muslim history serve as added proof for the author's argument
