Monkey Business Swinging Through The Wall Street Jungle:

Monkey Business John Rolfe, Peter Troob, 2024-09-24 This behind the scenes memoir of a brief and brutal career at a hot Wall Street investment bank is the funniest read since Michael Lewis's *Liar's Poker*. The Industry Standard Newly graduated business students John Rolfe and Peter Troob thought life at major investment banking firm Donaldson Lufkin Jenrette would be a dream come true. Instead they discovered Wall Street employees to be overworked and at their wit's end. Twenty hour work days, strip clubs and inflated salaries. This hilarious book reveals it all. *Monkey Business* is a wild ride following two young men as they realize they're selling their souls in exchange for the American Dream. Deadly accurate and no holds barred take on associate life. *Fortune*, *Animal House*, *Entertainment Weekly*. Not for the faint of heart. Details.

Crisis, Movement, Management: Globalising Dynamics James Goodman, Jonathan Marshall, 2016-05-23 Globalised neo liberalism has produced multiple crises: social, ecological, political. In the past crises of global order have generated large scale social transformations and the current crises likewise hold a transformative promise. Social movements become a crucial barometer in signalling both the demise and rise of political formations and programs. Elite strategies framed as crisis management create their own disordering side effects. Experiments in movement strategy gain greater significance as do contending elite efforts at repressing, managing or displacing the fallout. In this book we investigate both movements and management in the face of crisis, taking crisis and unanticipated consequences as a normal state of play. The book enquires into the winners and losers from crisis and investigates the movement management nexus as it unfolds in particular localities as well as in broader contexts. The book deals with some of the most pressing conflicts of our time and produces a range of theoretical insights. The ubiquity of crisis is seen as not only a hallmark of social life but a way into a different kind of social analysis. This book was published as a special issue of *Globalizations*.

The Financial Crisis in Perspective (Collection) Mark Zandi, Satyajit Das, John Authers, 2012-05 How the financial crisis really happened and what it really meant. 3 books packed with lessons for investors and policymakers. These three books offer unsurpassed insight into the causes and implications of the global financial crisis. Information every investor and policy maker needs to prepare for an extraordinarily uncertain future. In *Financial Shock* Updated Edition renowned economist Mark Zandi provides the most concise, lucid account of the economic, political and regulatory causes of the collapse plus new insights into the continuing impact of the Obama administration's policies. Zandi doesn't just illuminate the roles of mortgage lenders, investment bankers, speculators, regulators and the Fed; he offers sensible recommendations for preventing the next collapse. In *Extreme Money* best selling author and global finance expert Satyajit Das reveals the spectacular, dangerous money games that are generating increasingly massive bubbles of fake growth, prosperity and wealth while endangering the jobs, possessions and futures of everyone outside finance. Das explains how everything from home mortgages to climate change have become fully financialized, how voodoo banking keeps generating massive phony profits even now, and how a new generation of Masters of

the Universe has come to own the world Finally in *The Fearful Rise of Markets* top Financial Times global finance journalist John Authers reveals how the first truly global super bubble was inflated and may now be inflating again He illuminates the multiple roots of repeated financial crises presenting a truly global view that avoids both oversimplification and ideology Most valuable of all Authers offers realistic solutions for decision makers who want to prevent disaster and investors who want to survive it From world renowned leaders and experts including Dr Mark Zandi Satyajit Das and John Authers
