Competing in Tough Times Barry R. Berman, 2010-11-05 *Competing in Tough Times* brings together the powerful new strategies that world class retailers like Trader Joe's, Costco and Nordstrom are using today to survive and thrive in a brutally unforgiving retail environment. Internationally respected retail management expert Barry Berman shows retailers and their suppliers exactly how to build effective strategies based on cost and differentiation, plan and implement those strategies and measure the results. Berman offers detailed coverage of implementing strategies based on becoming the low cost provider and minimizing product proliferation, enhancing the service experience, developing and maintaining a strong private label program, and more. To support each approach, he presents full length examples from retailers covering every market sector from consumer goods to apparel to technology. He thoroughly examines top retailers such as Aldi, Amazon.com, L.L. Bean, Publix, Stew Leonard's, Wegman's and Whole Foods, and shares powerful insights drawn from the experiences of other leaders from Au Bon Pain to Best Buy, Family Dollar to Target, Tesco to Walgreen.

Netflix's Speculative Fictions Colin Jon Mark Crawford, 2020-12-10 *Netflix's Speculative Fictions: Financializing Platform Television* argues that Netflix's scaled expansion has hinged upon its ability not only to create but more importantly to communicate new forms and flows of potential value in platform capitalism wherein capital is mobilized not only from direct revenue streams but also the new value assigned to inputs and investments of data, debt, attention, behavior, taste, time, sociality and speculation. To interpret and critique these new communications and projections of value, Colin Jon Mark Crawford performs a discursive analysis of the platform television industry leader Netflix and its investor lore, the multi-sited narrative of value found in the company's investor relations materials and corporate communications such as letters to shareholders, financial earnings reports, executive interviews, press releases and blog posts. Netflix best represents the increasingly ubiquitous nexus of culture, tech and finance industries that is platform television. To better understand the emergent financial logics of this relatively new media industry, we must first understand the speculative narratives and discourses of value which organize it. Scholars of media studies, television studies, technology studies and economics will find this book particularly useful.
