Cognitive Artificial Intelligence for Health and Climate: Deep Models, Interpretability, and Decision Support Samit Shivadekar,2025-08-04

The intersection of health climate and artificial intelligence represents both a challenge and an opportunity This book explores how Cognitive AI combining deep learning reasoning and interpretability can address pressing issues in healthcare and climate science while supporting trustworthy informed decision making

Focusing on deep models explainable AI and decision support frameworks we examine methods that go beyond automation to enable human AI collaboration in complex high stakes environments Through research insights and real world case studies the book bridges theory and practice for researchers practitioners and decision makers seeking resilient and transparent AI solutions It is my hope that this work inspires the development of AI systems that are as trustworthy as they are innovative serving society s urgent needs with clarity fairness and resilience In writing this book I have drawn on my own experiences in research teaching and collaboration across disciplines as well as the invaluable contributions of the AI health and climate research communities I am grateful to colleagues students and partners whose insights have shaped the ideas presented

here May this work inspire continued exploration into AI systems that serve humanity's most urgent needs and do so with clarity fairness and resilience

Proceedings of the 2023 3rd International Conference on Public Management and Intelligent Society (PMIS 2023) Nadeem Akhtar, Azah Kamilah Draman, Mohd Faizal Abdollah, 2023-07-25 This is an open access book The 3rd International Conference on Public Management and Intelligent Society PMIS 2023 will be held on March 10-12, 2023 in Shanghai, China. PMIS 2021 and PMIS 2022 have been successfully held in the last 2 years, providing an academic exchange platform for participants from all over the world. The conference discussed the latest topics in the field of public management and intelligent society, and the wonderful presentations were given by invited distinguished speakers and praised by scholars. Building an intelligent society and studying public management have always been a leading and hot issue. PMIS 2023 will focus on public management in an intelligent society, technological innovation in an intelligent society, and advanced intelligent transportation systems to discuss further. The aim of PMIS 2023 is to bring together innovative academics and industrial experts in the field of Public Management and Intelligent Society to a common forum. The primary goal is to promote research and developmental activities, and another goal is to promote scientific information interchange between researchers, developers, students, and practitioners in related fields.

Music Production Pedagogy Brendan Anthony, Carola Boehm, Tim Canfer, Paul Thompson, Stephen B.
