[A Writer's Reference with Writing about Literature](#) Diana Hacker, Nancy Sommers, 2024-10-01 Your college writing will be one way you put your ideas and yourself out into the world. A Writer's Reference helps you strengthen your skills for that important work. It helps you develop a range of literacies: writing, reading, thinking, collaborating, using information, and working responsibly with AI. Acknowledging that generative AI tools are part of many writers' processes, A Writer's Reference teaches concrete, flexible strategies for applying your human intelligence to artificial intelligence. See C1a and the AI tips throughout. It helps writers to see AI not as a substitute but a starting point because if you've heard the expression "you do you know that AI simply can't do you not authentically," it seems magical but in fact it understands nothing, can't think, and won't ever replace the human voice your readers will want to hear.
