Just Tell Me How It Works Paul Lance,2014-05 The Experience Maker Dan Gingiss,2021-06-01 Competition is tougher than ever these days and competing on price or product just doesn't work as well anymore. So how can companies stand out in a crowded marketplace that is constantly evolving? The answer is customer experience and the best part about customer experience is that it's delivered by human beings which are unique to a company. Named a Top Business Book of 2021 by Forbes, *The Experience Maker* helps managers and executives focus on customers who are already spending money with their company rather than spending more money on marketing new customers. In *The Experience Maker* Dan Gingiss teaches that creating a remarkable experience for customers will ensure they become a company's best marketers and salespeople. By learning from the successes of other companies and applying the proprietary WISER method (Witty, Immersive, Shareable, Extraordinary, Responsive), managers and executives learn to create remarkable experiences that their customers will want to talk about with friends, family, and social media followers. *Cultivating Copyright* Bhamati Viswanathan,2019-06-27 Creators and creative industries are struggling to navigate the digital age. Intellectual property rights including copyrights, trademarks, and patents offer invaluable tools to help creative industries remain viable and sustainable. But to be fully effective, they must be considered as part of a greater ecosystem. *Cultivating Copyright* offers a framework for tailoring flexible strategies and adaptive solutions suited to diverse creative industries. Tailored solutions entail change on four fronts: business models and strategies, legal policies and practices, technological measures, and cultural and normative features. Creating strong creative industries through tailored solutions serves critical functions: promoting richly varied artistic endeavors and supporting democratic flourishing. True Love V/S Religion Satyam Rai,2017-05-30 About Book It is a love story of a boy named Aahil. The story starts in class 8 where he meets a girl named Aahilya with whom he falls in love. Aahil was a very shy person and weak in study, but after some time Aahilya, who is good in study, also falls in love with Aahil. Their relationship starts. Aahil gives one nickname to Aahilya, that is Aahila, which Aahil used to call her. The school in which they study, St John's school, was a higher secondary only, and slowly, slowly, time passes, and with each minute, their love also increases. But soon the class 10 is going to over, they have to be apart from each other. Now they have to go in different schools, but their friends say, no matter where they are, they will love each other. The time passes, and it comes after 10 years. Now Aahil was a known businessman of Kolkata, his mother wants to do NIKAH of him, but he always says, "No, by telling I know my Aahila will come back to me, I believe in her words." What had happened in these 10 years, they will meet again or not. *Posthuman Capitalism* Yasmin Ibrahim,2021-06-10 *Posthuman Capitalism* critically reviews the manifestation of capitalist agenda online by examining the phenomenon of the posthuman in the data economy. The chapters examine our posthuman condition where we are constantly asked to partake in platforms which perform to capitalist agenda while socializing us into new platforms of living, consuming, and interacting online. Labelling these modes of our experiential

extractions transactions and re making of our mortal lives as posthuman capitalism the book reviews the human entanglements from sociality friendship desire memory transgressions of privacy and co production of value through the data economy Offering innovative and interdisciplinary conceptualisations and vantage points on our contemporary data society this book will be a key text for scholars and students in the areas of digital media communication studies sociology philosophy and social psychology

The De Gruyter Handbook of Automated Futures Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation
