Goodreads Choice Cover Letter Deal:

Get Your Book Seen and Sold Claudine Wolk, Julie Murkette, 2023-09-25 Book marketing is intimidating for most authors. It's like learning a new language. Most authors believe that writing the book is the hard part of publishing and that they are done after writing the words. The End. Those in the publishing industry know better. The hard part of publishing starts after the book is completed. By the time most authors realize that they need to market their book, they are too late. Wolk and Murkette set out to change that outcome by providing an easy fun system for book marketing that is straightforward and understandable. Authors want one thing to give their books the BEST chance to be seen and sold. Today authors have so many easy ways to publish literally at their fingertips but after hitting the publish button they find book sales elusive. In the brand new guide *Get Your Book Seen and Sold* authors Claudine Wolk and Julie Murkette provide an easy book marketing strategy with a definitive starting point and a clear map. Through fun graphs, examples and exercises in the guide, authors will stay focused and find the empowerment to successfully promote their books.

The Tangled Web of the Civil War and Reconstruction David Madden, 2015-08-05 This unique collection of writings by the celebrated author David Madden provides a multitude of reflections on the Civil War and Reconstruction from nonfiction to fiction. Included are Madden's examination of key works by historians James McPherson and Fletcher Pratt, the story of the effort to simultaneously burn nine bridges by nine unionist guerrilla bands in the most complicated and coordinated guerrilla tactic of the war, and rediscoveries of both classic and contemporary works of Civil War fiction from William Faulkner, Joseph Stanley Pennell and more. Alongside these essays are pieces from Madden's Civil War novel *Sharpshooter* which illustrate the interconnectedness of fiction and nonfiction. This meshing of iconoclastic and controversial pieces includes varied perspectives on every aspect of the war and reconstruction from culture and civilian life to an imagining of Abraham Lincoln's critique of how historians have recorded the war and its aftermath. By exploring this web of perception, we can better understand the war and in turn shed greater light on the present and the future.

EXCERPT FROM THE BOOK You've probably figured out a few mistakes to avoid already but you'd probably be surprised at what many employers are turned off by when reading cover letters Lack of proofreading This is a no brainer but many people often miss them or don't bother to spell check before sending out the cover letter and resume It's

always a good idea to ask a friend or family member to check your letter for spelling errors and typos to give you a fresh perspective Not including the name of the hiring manager If you don't know who is going to read your cover letter and resume try to find out When in doubt call the company and ask who the person in charge of that department is so you can target your letter appropriately Not writing to an audience Focus each letter on each employer According to Career Builder 44 percent of executives polled said it's common for applicants to use their cover letters to show they've learned more about the job Doing so can give you an edge against the competition Failing to sell yourself If you undersell your skills and qualifications you won't make an impression on the reader Don't just talk about your accomplishments give concrete examples Regurgitating the resume Cover letters weren't meant as a tool to repeat everything that's in your resume It's a tool to build on it and an opportunity to correlate your experience with the job you're applying for Include any training classes awards and recognition you've received in the past that might give you an edge over the competition Buy a copy to keep reading
