Modern Japan A Very Short Introduction Modern Japan A Very Short Introduction:

Modern Japan Christopher Goto-Jones, 2009-04-23 Japan is arguably today's most successful industrial economy combining almost unprecedented affluence with social stability and apparent harmony Japanese goods and cultural products are consumed all over the world ranging from animated movies and computer games all the way through to cars semiconductors and management techniques In many ways Japan is an icon of the modern world and yet it remains something of an enigma to many who see it as a confusing montage of the alien and the familiar the ancient and modern The aim of this Very Short Introduction is to explode the myths and explore the reality of modern Japan by taking a concise look at its history economy politics and culture ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Modern Japan: A Very Short Introduction* Christopher Goto-Jones, 2009-04-23

Japan remains something of an enigma to many a confusing montage of the alien and the familiar This Very Short Introduction explodes the myths and explores the reality of modern Japan offering a concise engaging and accessible look at the history economy politics and culture of this fascinating nation It examines what the term modern means to the Japanese debunks the notion that Japan went through a period of total isolation from the world and explores the continuity between pre and post war Japan Music and the Making of Modern Japan Margaret Mehl, 2024-05-29 Japan was the first non

Western nation to compete with the Western powers at their own game The country's rise to a major player on the stage of Western music has been equally spectacular The connection between these two developments however has never been explored How did making music make Japan modern How did Japan make music that originated in Europe its own And what happened to Japan's traditional music in the process Music and the Making of Modern Japan answers these questions Discussing musical modernization in the context of globalization and nation building Margaret Mehl argues that far from being a side show music was part of the action on centre stage Making music became an important vehicle for empowering the people of Japan to join in the shaping of the modern world In only fifty years from the 1870s to the early 1920s Japanese people laid the foundations for the country's post war rise as a musical as well as an economic power Meanwhile new types of popular song fuelled by the growing global record industry successfully blended inspiration from the West with musical characteristics perceived as Japanese Music and the Making of Modern Japan represents a fresh contribution to historical research on making music as a major cultural social and political force **The Awakening of Modern Japanese Fiction**

Michihiro Ama, 2021-02-01 The Awakening of Modern Japanese Fiction is the first book to treat the literary practices of certain major modern Japanese writers as Buddhist practices and to read their work as Buddhist literature Its distinctive contribution is its focus on modern literature and importantly modern Buddhism which Michihiro Ama presents both as

existing in continuity with the historical Buddhist tradition and as having unique features of its own Ama corrects the dominant perception in which the Christian practice of confession has been accepted as the primary informing source of modern Japanese prose literature arguing instead that the practice has always been a part of Shin Buddhist culture Focusing on personal fiction this volume explores the works of literary figures and Buddhist priests who challenged by the modern development of Japan turned to Buddhism in a variety of ways and used literature as a vehicle for transforming their sense of selfhood Writers discussed include Natsume S seki Tayama Katai Shiga Naoya Kiyozawa Manshi and Akegarasu Haya By bringing Buddhism out of the shadows of early twentieth century Japanese literature and elucidating its presence in both individual authors lives and the genre of autobiographical fiction *The Awakening of Modern Japanese Fiction* demonstrates a more nuanced understanding of the role of Buddhism in the development of Japanese modernity 2009 Massimo Mastrogregori,2013-12-18 *Routledge Handbook of Modern Japanese History* Sven Saaler,Christopher W. A. Szpilman,2017-10-16 *The Routledge Handbook of Modern Japanese History* is a concise overview of modern Japanese history from the middle of the nineteenth century until the end of the twentieth century Written by a group of international historians each an authority in his or her field the book covers modern Japanese history in an accessible yet comprehensive manner The subjects featured in the book range from the development of the political system and matters of international relations to social and economic history and gender issues to post war discussions about modern Japan s historical trajectory and its wartime past Divided into thematic parts the sections include Nation empire and borders Ideologies and the political system Economy and society Historical legacies and memory Each chapter outlines important historiographical debates and controversies summarizes the latest developments in the field and identifies research topics that have not yet received sufficient scholarly attention As such the book will be useful to students and scholars of Japanese history Asian history and Asian Studies *Focus: Music in Contemporary Japan* Jennifer Milioto Matsue,2015-07-16 *Focus Music in Contemporary Japan* explores a diversity of musics performed in Japan today ranging from folk song to classical music the songs of geisha to the screaming of underground rock with a specific look at the increasingly popular world of taiko ensemble drumming Discussion of contemporary musical practice is situated within broader frames of musical and sociopolitical history processes of globalization and cosmopolitanism and the continued search for Japanese identity through artistic expression It explores how the Japanese have long negotiated cultural identity through musical practice in three parts Part I Japanese Music and Culture provides an overview of the key characteristics of Japanese culture that inform musical performance such as the attitude towards the natural environment changes in ruling powers dominant religious forms and historical processes of cultural exchange Part II Sounding Japan describes the elements that distinguish traditional Japanese music and then explores how music has changed in the modern era under the influence of Western music and ideology Part III Focusing In Identity Meaning and Japanese Drumming in Kyoto is based on fieldwork with musicians and explores the position of

Japanese drumming within Kyoto It focuses on four case studies that paint a vivid picture of each respective site the music that is practiced and the pedagogy and creative processes of each group The downloadable resources include examples of Japanese music that illustrate specific elements and key genres introduced in the text A companion website includes additional audio visual sources discussed in detail in the text Jennifer Milioto Matsue is an Associate Professor at Union College and specializes in modern Japanese music and culture [Samurai](#) Michael Wert,2021-02-01 The idea of the sword wielding samurai warriors beholden to a strict ethical code and trained in deadly martial arts dominates popular conceptions As early as the late seventeenth century they were heavily featured in literature art theater and even comedy This legacy continues in film and countless renditions of samurai history in anime manga and video games Much as they capture the modern imagination the samurai commanded influence over the politics arts philosophy and religion of their own time and ultimately controlled Japan from the fourteenth century until their demise in the mid nineteenth century On and off the battlefield whether charging an enemy on horseback or currying favor at the imperial court their story is one of adventures and intrigues heroics and misdeeds unlikely victories and devastating defeats *Introduction to the Short History of Modern Japan* Tadao Yanaihara,1963 *The Political and Economic Organization of Modern Japan* Grigorii Abramovich Vilenkin,1908 *The Metaphysics of Modernity* Ulrich Steinworth,2013 Does the modern age have a specific attitude to the world a way to make sense of the myriad stimuli that impinge on human organisms or as I call it a metaphysics This book claims it has It shows that what crucially changed Europe from the 16th century on was the spreading idea that things are best done for their own sake for goals inherent in an activity such as the goal of telling a good story or having a lively chat inheres in the telling or chatting itself The Renaissance took this idea from the ancients who also preferred intrinsic goals to extrinsic ones but the moderns discovered that the pursuit of intrinsic goals follows an immanent rationality that sets perfection standards to the activity Thus they could and did perfect activities that in antiquity had remained on the level of dabbling leisure time activities and transformed them into professions that we know today as theology science political theory the arts sports or journalism The European bourgeoisie though performed the most revolutionary yet also suicidal change They made traditional trade the pursuit of the extrinsic goal of acquiring money into an activity done for its own sake and enforced autonomy for its sphere just as the religious had enforced autonomy for their religious activities already in the 11th century They were so successful that they could take over the command of production in the industrial revolution and impose on all other spheres of society their goal of private profitability This was the historical end of the metaphysics of modernity But this book also argues that its principle the preference of intrinsic to extrinsic goals is still the best attitude to the world we can choose and that it is the best starting point for solving many problems of contemporary societies *The Making of Modern Japan* John Harington Gubbins,1922 *International Bibliography of Historical Sciences: Band 78: 2009* Massimo Mastrogregori,2013 Every year the Bibliography catalogues the most important new publications historiographical

monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies Within the systematic classification according to epoch region and historical discipline works are also listed according to author s name and characteristic keywords in their title **World History DeMYSTiFieD** Stephanie Muntone,2011-09-23 Dominate world history World History DeMYSTiFieD gives you the opportunity to learn this subject at your own pace Master topics such as important dates the great civilizations of Ancient Greece and Rome Empires the scientific developments of the Ancient Egyptians the various dynasties of China as well as fun and interesting facts The book helps you truly comprehend this challenging subject a without overwhelming you with complexities or mystifying jargon World History DeMYSTiFieD features Chapter opening objectives that give you insight into what you re going to learn in each step Questions at the end of every chapter reinforce learning and pinpoint weaknesses Still Struggling icon offers specific recommendations for when you re having difficulty with certain subtopics Includes a final exam for overall self assessment Curriculum Tree shows how the topic covered in the book fits into a larger curriculum [The British National Bibliography](#) Arthur James Wells,2009 **The Mid-Atlantic Almanack** , [Christianity in Modern Japan](#) Ernest Wilson Clement,1905 **Modern Japan** Arthur E. Tiedemann,1968 *The World's Work* Walter Hines Page,Arthur Wilson Page,1904 A history of our time **The Japan Magazine** ,1910

Eventually, you will definitely discover a supplementary experience and talent by spending more cash. still when? get you tolerate that you require to get those every needs following having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will guide you to understand even more approaching the globe, experience, some places, afterward history, amusement, and a lot more?
