Modernist Specialist Students Considering Architecture:

Modernist to Specialist Brian Griffin, 2015-12-16 This book describes how the author developed his successful career from a leading Modernist design architect to specialising in the design of Research Laboratories and University Learning facilities It should be of interest to students considering a career in architecture to show one architect's successful career Brian Griffin has also written books on Laboratory Design and Teaching and Learning facilities **Inventing American**

Modernism Jill E. Pearlman, 2007 In this book Jill Pearlman argues that Gropius did not effect changes alone and further that the Harvard Graduate School of Design was not merely an offshoot of the Bauhaus She offers a crucial missing piece to the story and to the history of modern architecture by focusing on Joseph Hudnut the school's dean and founder BOOK

JACKET **Southern Vietnamese Modernist Architecture** Mel Schenck, 2020-04-21 Southern Vietnamese Modernist Architecture features beautiful architectural photography that illustrates the outstanding accomplishment of the people of southern Vietnam in developing a mid century modernist architecture that is extraordinary in the world Especially for Americans Vietnam has been a war instead of a country The world didn't notice that the Vietnamese were simultaneously constructing modern apartment buildings houses large public buildings and public housing as they developed a new nation And the world didn't anticipate that this architecture would be so overtly modernist rather than an adaption of traditional Vietnamese designs to the continuation of colonial architecture In the mid twentieth century southern Vietnamese architects developed a version of modernist architecture that accommodated the tropical climate and reflected the identity of a newly independent culture It demonstrates the innate sense of design of Vietnamese and it represented the outlook of the people of southern Vietnam as they looked towards the future even in the face of war The vast quantity and quality of Vietnamese modernist buildings constructed throughout southern Vietnam made Vietnam an unrecognized center of modernism in the world Most importantly the southern Vietnamese as a culture embraced modernism and it became the vernacular architecture of the culture for dwellings This architecture features an interplay between masses and voids that provides a much more vibrant version of modernist architecture This style fills the gaps between the functionalism of the International Style and the quest for identity and spirit that has been lacking in modernism worldwide American architect Mel Schenck is a long term immigrant to Vietnam and has been studying this architecture since he was surprised by the extent and quality of modernist architecture in Saigon when he first lived there in 1971-72 He and photographer Alexandre Garel accumulated a database of 400 buildings and 4 000 photographs in southern Vietnam to serve a comprehensive analysis of the history and characteristics of this distinctive architecture Architectural historians aficionados of modernist architecture and anyone interested in Vietnamese culture will find that this book is a positive story about Vietnamese aspirations for independence and the value of modernist architecture in living in the world today Architecture Re-assembled Trevor

Garnham, 2013-04-26 Beginning from the rise of modern history in the eighteenth century this book examines how changing

ideas in the discipline of history itself has affected architecture from the beginning of modernity up to the present day It reflects upon history in order to encourage and assist the reader in finding well founded principles for architectural design This is not simply another history of architecture nor a history of histories Setting buildings in their contemporaneous ideas about history it spans from Fischer von Erlach to Venturi and Rossi and beyond to architects working in the fallout from both the Modern Movement Aalto Louis Kahn Aldo van Eyck and Post modernism such as Rafael Moneo and Peter Zumthor It shows how Soane Schinkel and Stirling amongst others made a meaningful use of history and contrasts this with how a misreading of Hegel has led to an abuse of history and an uncritical flight to the future This is not an armchair history but a lively discussion of our place between past and future that promotes thinking for making Modern Greek Studies Yearbook ,2012 *Modern Architecture in America* Richard Guy Wilson,Sidney K. Robinson,1991 **No more giants** Jessica Kelly,2023-01-24 Architecture is more than buildings and architects It also involves photographers writers advertisers and broadcasters as well as the people who finance and live in the buildings Using the career of the critic J M Richards as a lens this book takes a new perspective on modern architecture Richards served as editor of *The Architectural Review* from 1937 to 1971 during which time he consistently argued that modernism was integrally linked to vernacular architecture not through style but through the principle of being an anonymous expression of a time and public spirit Exploring the continuities in Richards s ideas throughout his career disrupts the existing canon of architectural history which has focused on abrupt changes linked to individual pioneers encouraging us to think again about who is studied in architectural history and how they are researched **Time Frames** Ugo Carughi,Massimo Visone,2017-04-28 Time Frames provides a reconnaissance on the conservation rules and current protection policies of more than 100 countries with particular attention to the emerging nations and twentieth century architecture The contributions illustrate the critical issues related to architectural listings with a brief history of national approaches a linkography and a short bibliography The book also provides a short critical lexicography with 12 papers written by scholars and experts including topics on identities heritages conservation memories and the economy By examining the methods used to designate building as heritage sites across the continents this book provides a comprehensive overview of current protection policies of twentieth century architecture as well as the role of architectural history Inland Architect ,1986 *The Architect and Building News* ,1928 **The Architect & Building News** ,1928 **The Building News and Engineering Journal** ,1926 **The Western Architect** ,1930 **Artbibliographies Modern** ,2005 Identification and Documentation of Modern Heritage Ron van Oers,2003 **The Architectural Forum** ,1928 **Architectural Forum** ,1928 *The Architects' Journal* ,2001-01 Building.
