Moma Modern House Moma Modern Kids:

Architecture and Design at the Museum of Modern Art Thomas S. Hines, 2019-01-22 A comprehensive and fascinating look at the history of the Museum of Modern Art's Architecture and Design Department under the leadership of the influential curator Arthur Drexler Arthur Drexler 1921 1987 served as the curator and director of the Architecture and Design Department at the Museum of Modern Art MOMA from 1951 until 1986 the longest curatorship in the museum's history Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments Although several books cover the roles of MoMA's founding director Alfred Barr and the department's first curator Philip Johnson this is the only in depth study of Drexler who gave the department its overall shape and direction During Drexler's tenure MoMA played a pivotal role in examining the work and confirming the reputations of twentieth century architects among them Frank Lloyd Wright Le Corbusier Richard Neutra Marcel Breuer and Ludwig Mies van der Rohe Exploring unexpected subjects from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden Drexler's boundary pushing shows promoted new ideas about architecture and design as modern arts in contemporary society The department's public and educational programs projected a culture of popular accessibility offsetting MoMA's reputation as an elitist institution Drawing on rigorous archival research as well as author Thomas S Hines's firsthand experience working with Drexler *Architecture and Design at the Museum of Modern Art* analyzes how MoMA became a touchstone for the practice and study of midcentury architecture

Art Making with MoMA Cari Frisch, Elizabeth Margulies, 2018-11-13 Inspired by the authors' experiences of looking at and making art with kids and families at the Museum of Modern Art and designed to get both children and adults to start thinking like artists this volume presents an array of projects that use easy to find materials and encourage hours of imaging designing experimenting constructing creating tinkering and play

customer experience online and offline Online material includes lecture slides a test bank of questions an instructor s manual and explanatory videos *The Publishers Weekly*, 2010 **Serious Play** Monica Obniski, Darrin Alfred, 2018-01-01 A lively exploration of eclecticism playfulness and whimsy in American postwar design including architecture graphic design and product design This spirited volume shows how postwar designers embraced whimsy and eclecticism in their work exploring playfulness as an essential construct of modernity Following World War II Americans began accumulating more and more goods spurring a transformation in the field of interior decoration Storage walls became ubiquitous often serving as a home s centerpiece Designers such as Alexander Girard encouraged homeowners to populate their new shelving units with folk art as well as unconventional and modern objects to produce innovative and unexpected juxtapositions within modern architectural settings Playfulness can be seen in the colorful child sized furniture by Charles and Ray Eames who also produced toys And in the postwar corporate world the concept of play is manifested in the influential advertising work of Paul Rand Set against the backdrop of a society that was experiencing rapid change and high anxiety Serious Play takes a revelatory look at how many of the country s leading designers connected with their audience through wit and imagination

Breuer's Bohemia James Crump, 2021-09-14 Breuer s Bohemia explores a vibrant period of midcentury modern design and culture as seen through the influential New England houses designed by Marcel Breuer for his circle of clients and friends The iconic twentieth century architect Marcel Breuer was a prolific designer of residential architecture which is often overshadowed by his early renown as a Bauhaus furniture maker and his large scale projects Breuer s Bohemia surveys the houses he designed in Connecticut and Massachusetts from the 1950s through the 70s many of which were commissioned by a few culturally progressive clients chiefly Rufus and Leslie Stillman and Andrew and Jamie Gagarin who coalesced around him into a dynamic social circle Included in this scene were prominent cultural figures such as Alexander Calder Arthur Miller Francine du Plessix Gray Philip Roth and William Styron and more marking a unique intersection of postwar architecture art and letters The publication of Breuer s Bohemia coincides with the feature length documentary of the same name by author and filmmaker James Crump exploring Breuer s explosive residential practice on the East Coast Through original research and interviews the voices of principal characters from Breuer s circle and notable figures from the field of architecture help tell the story of Breuer s collaborations with his friends and clients breathing new life into the history of the rich cultural atmosphere of which they all played a vital part Heavily illustrated with vintage and contemporary photographs as well as rarely seen archival materials Breuer s Bohemia is a unique glimpse of a twentieth century milieu that produced an aesthetic intellectual and sometimes sybaritic community during a fertile period of American design and culture

Designing the Creative Child Amy F. Ogata, 2013-04-21 The postwar American stereotypes of suburban sameness traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War The creative child an idealized future citizen was the darling of baby boom parents psychologists marketers and designers who

saw in the next generation promise that appeared to answer the most pressing worries of the age *Designing the Creative Child* reveals how a postwar cult of childhood creativity developed and continues to this day Exploring how the idea of children as imaginative and naturally creative was constructed disseminated and consumed in the United States after World War II Amy F Ogata argues that educational toys playgrounds small middle class houses new schools and children s museums were designed to cultivate imagination in a growing cohort of baby boom children Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity making creativity an emblem of national revitalization Ogata describes how a historically rooted belief in children s capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today From building blocks to Gumby playhouses to Playskool trains Creative Playthings to the Eames House of Cards Crayola fingerpaint to children s museums material goods and spaces shaped a popular understanding of creativity and *Designing the Creative Child* demonstrates how this notion has been woven into the fabric of American culture
