We Are the Nerds Christine Lagorio-Chafkin, 2018-10-02 Named a Best Book of 2018 by Fast Company this is a sharply written and brilliantly reported Shelf Awareness look inside Reddit the wildly popular often misunderstood website that has changed the culture of the Internet Reddit hails itself as the front page of the Internet It s the third most visited website in the United States and yet millions of Americans have no idea what it is We Are the Nerds is an engrossing look deep inside this captivating maddening enterprise whose army of obsessed users have been credited with everything from solving cold case crimes and spurring tens of millions of dollars in charitable donations to seeding alt right fury and landing Donald Trump in the White House We Are the Nerds is a gripping start up narrative the story of how Reddit s founders Steve Huffman and Alexis Ohanian rose up from their suburban childhoods to become millionaires and create an icon of the digital age before seeing the site engulfed in controversies and nearly losing control of it for good Based on Christine Lagorio Chafkin s exclusive access to founders Ohanian and Huffman We Are the Nerds is also a compelling exploration of the way we all communicate today and how we got here Reddit and its users have become a mirror of the Internet it has dingy corners shiny memes malicious trolls and a sometimes heart melting ability to connect people across cultures oceans and ideological divides

The Revolution That Wasn't Spencer Jakab, 2022-02-01 The saga of GameStop and other meme stocks is revealed with the skill of a thrilling whodunit Jakab writes with an anti Midas touch If he touched gold he would bring it to life Burton G Malkiel author of A Random Walk Down Wall Street From Wall Street Journal columnist Spencer Jakab the real story of the GameStop squeeze and the surprising winners of a rigged game During one crazy week in January 2021 a motley crew of retail traders on Reddit s r wallstreetbets forum had seemingly done the impossible they had brought some of the biggest richest players on Wall Street to their knees Their weapon was GameStop a failing retailer whose shares briefly became the most traded security on the planet and the subject of intense media coverage The Revolution That Wasn't

is the riveting story of how the meme stock squeeze unfolded and of the real architects and winners of the GameStop rally Drawing on his years as a stock analyst at a major bank Jakab exposes technological and financial innovations such as Robinhood's habit forming smartphone app as ploys to get our dollars within the larger story of evolving social and economic pressures The surprising truth What appeared to be a watershed moment a revolution that stripped the ultra powerful hedge funds of their market influence placing power back in the hands of everyday investors only tilted the odds further in the house's favor Online brokerages love to talk about empowerment and democratizing finance while profiting from the mistakes and volatility created by novice investors In this nuanced analysis Jakab shines a light on the often misunderstood profit motives and financial mechanisms to show how this so called revolution is on balance a bonanza for Wall Street But Jakab argues there really is a way for ordinary investors to beat the pros by refusing to play their game **Martialis**
