Handbook on the Economics of Retailing and Distribution Emek Basker, 2016-01-29 This Handbook explores and critically examines current research in economics and marketing science on key issues in retailing and distribution Providing a rich perspective for the discussion of public policy contributions from several disciplines and continents range from the history of chains and the impact of multinational retailers on international trade patterns to US merger policy in the retail context the rise of the Internet and consumer to consumer sales The chapters address methodological issues such as the structural estimation of entry games between retailers productivity measurement when both inputs and output are not fully observable and demand estimation with variable assortment Policy issues explored include mergers zoning and the regulation of buyer power while other chapters address some of the recent exciting developments in technology retail formats and data availability The book goes on to study the changes in online retailing and big data and to examine competition in specific retail sectors including gasoline stations automobile dealerships supermarkets and big box retail This state of the art Handbook is an essential reference for students and academics of economics and marketing science and offers an outsider's perspective to specialists in operations research data analytics geography and sociology *The Internet Upheaval* Ingo Vogelsang, Benjamin M. Compaine, 2000 Early 2000 saw the US economy enjoy the longest period of sustained growth and economic prosperity in its history This book argues that the impact of information technologies particularly the internet partly explain this phenomenon and analyzes the reform of telecommunications policy **Internet Policy and Economics** William H. Lehr, Lorenzo Maria Pupillo, 2009-06-04 For over a decade William Lehr Lorenzo Pupillo and their colleagues in academia industry and policy have been on the electronic frontier exploring the implications of the technologies that are revolutionizing communication and culture In 2002 *Cyber Policy and Economics in an Internet Age* featured essays that focused on such emerging economic and policy related issues of universal access appropriate content spectrum allocation taxation consumer protection and regulation with respect to the Internet In this fully revised and updated edition entitled *Internet Policy and Economics Challenges and Perspectives* the editors and contributors tackle the most current topics and issues as the Internet continues to permeate all facets of society New chapters cover dynamics in the developing world the implications of e commerce for fiscal policy and the impact of peer to peer networks on music and the arts as well as debates over intellectual property rights privacy issues and cybercrime Applying insights from economics political science law business and communications the book will serve as essential resource for researchers and students policymakers and regulators and industry analysts and practitioners Policy Responses to Tax Competition David R. Agrawal, James M. Poterba, Owen M. Zidar, 2025-10-29 A critical examination of the effects of tax competition Policy Responses to Tax Competition provides an in depth exploration of how jurisdictions design taxes on mobile economic factors Tax competition between jurisdictions that seek to attract businesses and residents presents both opportunities and challenges It can foster

government efficiency and provide a counterweight to lobbying for increased spending but it can also result in inefficiently low tax rates and revenue shortfalls as jurisdictions vie for tax bases This volume examines the economic drivers and consequences of tax competition and presents empirical evidence on its effects Divided into three parts the book first reviews existing research on the determinants and consequences of tax competition and related policy initiatives such as development incentives The second section focuses on specific policies such as the Kansas Missouri noncompete pact and international measures like the OECD s Base Erosion and Profit Shifting initiative that are designed to limit tax competition It also considers the economic responses to these policies the distributional impact of competition reducing policies and potential strategic reactions of other governments The final section presents case studies of the effects of various policies including inter municipal cooperation in France and corporate tax equalization in Switzerland Altogether this volume provides new insights into the nature of inter jurisdictional tax competition and the range of potential responses available to jurisdictions at various levels in federal systems
