The way brands communicate with their existing and target audience has undoubtedly transformed

One of the main reasons for this transformation is the increase in the popularity of social networking platforms

These days an increasing number of brands are using visual media for communicating their brand's message

Social media has certainly revolutionized our lives

Instagram has stood the test of time and is now one of the most popular social networking platforms today

So if your brand isn't already on Instagram then there is no time like the present to get started

Instagram has been around for a while but not a lot of people know how to make the most of its features

The creators of this platform keep introducing new features along with changes to the algorithm

So it is quintessential that you stay on top of all the updates

In this book you will learn about the things you need to increase your following on Instagram so you can maximize your profits

You will be given information about the different benefits you can reap by using Instagram

You will learn about various tips for choosing the perfect Instagram name and tricks to optimize your brand's Instagram profile

Apart from this you will also learn about specific strategies for building your niche on Instagram and thoroughly engage your audience

Marketing on Instagram and how you can increase your following are also discussed in detail in this book

A combination of all these factors will ensure that your brand makes the most of all that Instagram has to offer

You will want to make sure that whatever strategy you start to use on Instagram is going to keep the focus on the brand that you have built and how that brand sees the world

Instagram is great for sharing videos and photos so make sure that when you connect the business with your followers make sure that it stays consistent with your brand rather than straying away or showing things that just don't go together

Use your brand or company name in hashtags the hashtags that you pick don't have to be complicated

If you already have a pretty good following on Instagram or your brand name is well known go ahead and use this as one of your hashtags

This will make it easier for your followers to find you because they can just search the name and find some of your posts

Make a follower famous it is not just about your followers checking out your posts it is about how you interact with your followers

Take the time to look over the pages of your followers and then like and share some of their posts

This helps to show the customers that you really appreciate them because you are acknowledging their cool posts and sharing them with others on your page

Be careful with this one though because some may be personal and you should always ask for permission beforehand if you are unsure whether they would like it shared or

not So if you are ready to learn more then let us get started immediately *Instagram Marketing* David J. Green,2019-12-10
How is this book different from others This guide acts like an in depth course on Instagram Marketing whereas other shorter guides only touch on the subject You will learn practical steps to growing your following in the most effective way possible

Instagram Secrets Alexander Vinci,2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform If you just starting reading through this guide and are thinking that your business isn't an eCommerce business and so Instagram isn't the place for you think again Remember the key proposition that Instagram brings is visualization Consider these examples 1 You're a real estate agent and want to highlight the newest mountain home that you have on the market 2 You are a world class hospital that just released a new mother's ward with beautiful birthing and stay suites with a spa like feel 3 You're a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online but the business is building brand awareness and drumming up interest so that the consumer will visit their website or pick up the phone to learn more The mysterious Instagram algorithm While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts They'll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform For businesses that want to enable the Shopping capability they need to meet the following requirements You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company's registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those
