On-Demand Culture Chuck Tryon, 2013-07-18 The movie industry is changing rapidly due in part to the adoption of digital technologies Distributors now send films to theaters electronically Consumers can purchase or rent movies instantly online

and then watch them on their high definition televisions their laptops or even their cell phones Meanwhile social media technologies allow independent filmmakers to raise money and sell their movies directly to the public All of these changes contribute to an on demand culture a shift that is radically altering film culture and contributing to a much more personalized viewing experience Chuck Tryon offers a compelling introduction to a world in which movies have become digital files He navigates the complexities of digital delivery to show how new modes of access online streaming services like YouTube or Netflix digital downloads at iTunes the popular Redbox DVD kiosks in grocery stores and movie theaters offering digital projection of such 3 D movies as Avatar are redefining how audiences obtain and consume motion picture entertainment Tryon also tracks the reinvention of independent movies and film festivals by enterprising artists who have built their own fundraising and distribution models online Unique in its focus on the effects of digital technologies on movie distribution On Demand Culture offers a corrective to address the rapid changes in the film industry now that movies are available at the click of a button

Digital Depression Dan Schiller, 2014-10-15 The financial crisis of 2007-08 shook the idea that advanced information and communications technologies ICTs as solely a source of economic rejuvenation and uplift instead introducing the world to the once unthinkable idea of a technological revolution wrapped inside an economic collapse In *Digital Depression* Dan Schiller delves into the ways networked systems and ICTs have transformed global capitalism during the so called Great Recession He focuses on capitalism's crisis tendencies to confront the contradictory matrix of a technological revolution and economic stagnation making up the current political economy and demonstrates digital technology's central role in the global political economy As he shows the forces at the core of capitalism exploitation commodification and inequality are ongoing and accelerating within the networked political economy
