Collections, 2002 **Syllable Division Word Lists** Joshua Adam Morgan M Ed, 2022-12-28 This resource is perfect for direct instruction using Science of Reading strategies. Apply and generalize syllabication strategies or just push your students to read higher level words with predictable patterns. Purpose: To provide a user friendly resource that can be used before and/or during a lesson to drive phonics practice with encoding and decoding. Rationale: Teachers and service providers are able to quickly reference the word lists containing specific phonics skills, syllable types, number of syllables and syllable patterns. After taking my Orton Gillingham training, I struggled to find a well organized resource for reference when planning and during my lessons. I have used several resources but the organization was clunky and was not aligned to the scaffolding of OG beyond single syllable words. To solve this problem, Morgan Learning created a quick user friendly resource in the Syllable Division Word Lists by Phonics Type Pattern. This set of word lists is sorted by phonics complexity: CVC, Digraphs or Blends, syllable type, open/closed, magic 'e', vowel pair, bossy 'r', consonant 'le', number of syllables (2 or 3) and syllable pattern: VC, CV, V CV, VC V V V. *Practice to Learn: Phonics (Gr.
