Andersen, 2021-10-26 Change initiatives fail because humans are hardwired to return to what's worked for us in the past. This book offers a straightforward process for rewiring ourselves and those we lead to be more change capable. Erika Andersen says avoiding change has been a historical imperative. In this book, she shows how we can overcome that reluctance and get good at making necessary change. Using a fictional story about a jewelry business changing generational hands, Andersen lays out a five-step model for addressing both the human side of change and its practical aspects.

Step 1: Clarify the change and why it's needed. Get clear on what the change is and the benefits it will bring.

Step 2: Envision the future state. Build a shared picture of the post-change future.

Step 3: Build the change. Bring together a change team, engage key stakeholders, and plan the change.

Step 4: Lead the transition. Build a transition plan that supports the human side of the change, then engage the whole organization in making the change.

Step 5: Keep the change going. Work to make your organization permanently more change capable.

With opportunities to self-reflect and try out the ideas and approaches throughout, this book is a practical guide to thriving in this era of nonstop change.
