Black Friday In The Us Install:

How Armies Respond to Revolutions and Why Zoltan Barany, 2020-03-31 An exploration of military responses to revolutions and how to predict such reactions in the future We know that a revolution's success largely depends on the army's response to it But can we predict the military's reaction to an uprising *How Armies Respond to Revolutions and Why* argues that it is possible to make a highly educated guess and in some cases even a confident prediction about the general's response to a domestic revolt if we know enough about the army the state it is supposed to serve the society in which it exists and the external environment that affects its actions Through concise case studies of modern uprisings in Iran China Eastern Europe Burma and the Arab world Zoltan Barany looks at the reasons for and the logic behind the variety of choices soldiers ultimately make Barany offers tools in the form of questions to be asked and answered that enable analysts to provide the most informed assessment possible regarding an army's likely response to a revolution and ultimately the probable fate of the revolution itself He examines such factors as the military's internal cohesion the regime's treatment of its armed forces and the size composition and nature of the demonstrations *How Armies Respond to Revolutions and Why* explains how generals decide to support or suppress domestic uprisings

[Black Friday](#) Greg J. Gardner, 2019-07-03 Greg J Gardner brings to life the darkest terror attack America has ever faced when a small enclave of Islamic extremists works to bring about the collapse of the American ideal Gripping engrossing and graphic without being grotesque the story follows a small but well trained group of terrorists who attack busy shopping centers and grocery stores during the height of holiday shopping and the busiest day of the year Black Friday From the bloody front line to the CNN news desk and from California to the Oval Office *Black Friday* details the attack from the moment it begins in the small town of Boone North Carolina Simultaneously in several states jihadist teams open fire on shoppers with semiautomatic weapons killing thousands in minutes As America reels from this attack another begins Hell bent on the destruction of America and willing to give their lives the terrorists will stop at nothing to kill as many innocent people as possible dividing America in the process and turning neighbor against neighbor As race and religious differences threaten to push the country apart the American people must fight to overcome differences and band together to conquer a common enemy While it augurs an effect on the United States more eerie than a prolonged nightmare *Black Friday* sets forth in convincing detail what a small enclave of Islamic extremists could do to bring about the collapse of the American ideal Indeed in this breakout novel by Greg Gardner a cadre of terrorists brings about a transformation in this country that no one now anticipates And yet Gardner's narrative of unfolding horrors is neither a condemnation of Islam nor anthem to America's virtues It is a play by play through a harrowing month in the tribulation of ordinary people who comprise the bedrock of America during the course of a continuing nationwide atrocity Gripping engrossing and graphic without being grotesque I can argue that *Black Friday* is precisely what would happen from the White House to the newsrooms across the continent to the back roads around every town when a few
